Technology helps us in many ways every day, and it is all around us in our homes, schools, and even outside. We use computers, phones, and tablets not only to play games but also to learn new things, read stories, and watch videos that teach us about the world. Machines like washing machines, refrigerators, and cars make our work easier and save our time, so we can spend more moments with our families and friends. The internet is another important part of technology because it lets us talk to people who live far away, share pictures, and even see them on video calls. Technology is a tool that makes life faster, simpler, and more fun, helping us to learn, connect, and enjoy the world in new ways every day.
