----	-----------------------------	--

3.1) Write the numbers which match the picture

_____ + _____ = _____

3.2) How many ducks?

4.	Count On to Add	Select one addend to start with and count on by the value of the second addend.

4.2) What is the sum?
Show on the number line.

$$7 + 4 = \underline{\quad}$$

5. Make a 10 to Add

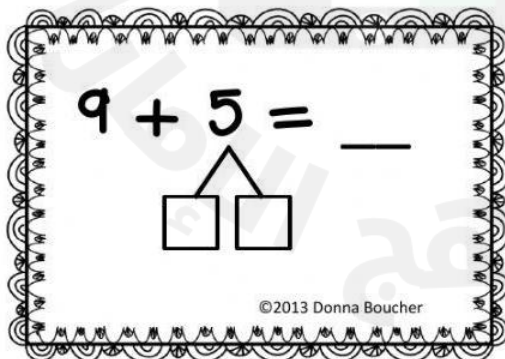

Use the make a 10 strategy to solve addition equations within 20.

5.1) Draw counters in the ten-frame to add $8 + 4$

$$8 + 4 = \underline{\quad}$$

5.2) Use the number bond to solve $9 + 5$

The diagram shows the equation $9 + 5 = \underline{\quad}$ inside a decorative border. Below the equation is a number bond consisting of a large triangle pointing upwards, with two smaller squares below it. Lines connect the top vertex of the large triangle to the top corners of the two smaller squares. The number 9 is written to the left of the plus sign, and the number 5 is written to the right of the plus sign.
