Term 2

2022 – 2023

Overview

In this assessment planner, you will find all of the tools and information you need to plan and implement Term 2 assessments. While every effort has been made to provide complete and accurate information in this document, there is a possibility that elements of the assessment plan will be updated as the term progresses. If the need arises, updates will be communicated as soon as the assessment team is aware of the change and an updated version of this document will be provided.

Level Alignments

Level alignments allow you to access and understand targeted learning outcomes and assessment goals for your students. Level alignments include the English Language Curriculum Framework for Excellence (ECFE) Level, the Literacy Level, the CEFR Level, the Lexile Range, the Global Scale of English level, a list of National and International Assessments, and a list of assessed curriculum frameworks.

Coverage

Coverage details are of particular importance in planning instruction for the term. In order to ensure that students are fully prepared for assessments, ensure frequent exposure to Term 2 assessment topics, lexis, grammar and functional language found in **this** document. Coverage may differ from what is featured in the course books. The English Language Assessment Unit will provide resources to support you and your students in preparing for assessments. A teaching resource with examples of Term 2 grammatical points and functional language will be released in weeks 6 - 8 to provide support for all Term 2 assessments. An additional resource will be released ahead of the Reading and Writing Summative Assessments. This is for classroom use and will contain information about key lexis. We recommend using the information in the coverage details to develop your own resources to provide additional exposure to assessed topics and language points throughout the term.

Term 2 Assessments

In Term 2 Assessments, you will find a list of all assessments for the term including the assessment type, weights for the term and the academic year, pacing, release dates and due dates, and a brief description of each assessment.

Assessment Timeline

The assessment timeline provides a visual representation of the assessment plan for Term 2. It details when assessments are to be completed and marked, and also provides release information for all resources and assessment tools.

Specifications and Guidance

Guidance will be provided ahead of implementation and all specifications are included in the document. The specifications and guidance are similar to the documents released by the assessment team in previous years, with some updates to formatting and content for cohesion and to reflect changes to the assessment plan for the current academic year. Specifications and guidance are provided for the Reading and Writing Summative Assessments.

Assessment	Description
Continuous Assessment	In term 2, continuous assessment is written by teachers based on the individual needs of their students. A continuous assessment guide and materials are available on the English assessment SharePoint and on LMS. Teachers are encouraged to develop their own continuous assessment program tailored to the gaps identified by the diagnostic and summative assessments and also formative assessment conducted during usual classroom practice.
Writing Summative Assessment	As the culmination of the term's work, students are asked to demonstrate their learning by answering a writing prompt with three bullet points. The topic of the prompt and bullet points will be related to the coverage given in this document and students will produce an extended response, the expected length of which is detailed in the specifications below. The extended response will be marked against an emerging, developing and mastery rubric to generate useful data that can be used formatively. The writing assessment will constitute 25% of the summative assessment marks for this term.
Reading Summative Assessment	Students will also demonstrate their accomplishments in reading. In the first part, they will select the correct grammatical, functional language or vocabulary point to fill the gaps in three MAZES, which will be 30% of the reading marks. The part A MAZE will assess the prerequisite language needed to access the level coverage. The part B MAZE will assess the language detailed in the coverage for the level. The part C MAZE will assess more sophisticated language related to the level coverage. There will be 5 questions per MAZE. In the next section, which holds 70% of the reading marks, students will answer multiple choice questions about three reading texts (similarly parts A, B and C). There will be 5 questions for each reading text. There will also be multiple-choice bonus questions related to the part B text. Students will be asked to make an inference about the information within the text. Before they answer the inference question, there will be an additional specific information question related to the inference. The higher-level thinking skills required by this question will reveal students' deeper understanding and interaction with the text. The reading assessment will constitute 75% of the summative assessment marks for this term.

Writing Summative Assessment Rubric Levels 3 - 6

	Task completion	Structure	Grammar	Vocabulary	Spelling and punctuation
5	Student writes an extended response, obviously reaching or exceeding the expected length, which covers all aspects of the prompt.	Response is clearly structured appropriately in paragraphs (or at least one paragraph for levels 3 - 4) with evident attempt at an opening and closing.	Response uses a range of simple and possibly some complex grammatical structures appropriate to the prompt/questions. Grammatical errors are infrequent and do not affect readability.	Response uses a few examples of more uncommon or sophisticated vocabulary for the specific topic of the task	There are examples of accuracy in even higher-level spelling and punctuation. There may be multiple errors, but they mostly don't affect readability.
4	Student writes an adequately extended response, approximating the word count, with most aspects covered (no more than one area of the prompt missed).	Levels 3 - 4: Response is structured so as to clearly resemble a paragraph. Levels 5 - 6: Response is written using a paragraph or more which contain a main theme and supporting ideas.	Response uses a range of grammar appropriate to the prompt/questions. Grammatical errors may sometimes affect readability.	Vocabulary is adequate to communicate a response to the topic, but may largely depend on common/simple vocabulary.	Common vocabulary is mostly spelt accurately, and sentences contain basic punctuation. There may be frequent spelling errors with more difficult words.
3	Student expresses several ideas which cover more than one aspect of the prompt, although more than one area is missed or not covered in sufficient detail.	Response contains clearly connected text, sentences and ideas. Sentences may be disconnected and not structured into paragraphs.	Response uses basic grammar appropriate to the prompt / questions. Grammatical errors may be frequent.	Vocabulary range is clearly limited, but just about sufficient to cover some topics in the prompt.	There are examples of accurate spelling and punctuation throughout, but also frequent errors.
2	Student expresses an idea that covers at least one aspect of the prompt.	Response contains a clear attempt at sentence structure in responding to prompt.	Response shows some attempt at the most basic grammatical structures (e.g. subject-verb use) but there are frequent errors.	A few examples of basic, high frequency words are used which relate to the topic and task.	There is some attempt at punctuation. Spelling shows some signs of phonemic awareness, but many errors found.
1	Student's writing does not cover any aspect of the prompt.	Response does not appear to be structured in any conventional sense, even in terms of sentences.	No attempt at grammatical structures is identifiable.	Response contains very little that can be identified as appropriate vocabulary for the task.	Response contains no punctuation and/or almost every word is spelt so as to be barely decipherable.
0	No response, or entirety of response plagiarised.
