Part 4: Read the text below and answer the question that follows. Use full sentences.

Text:

"The forest was alive with the sound of the wind rustling through the trees, a chorus of whispers carried by the breeze. Beneath the towering oaks and pines, small animals darted through the underbrush, unseen but heard by the careful listener. Above, the sky was a clear blue, but the distant clouds hinted at a storm on the horizon. As I walked along the narrow trail, I felt an eerie sense of anticipation, as though the forest itself was holding its breath, waiting for something to happen. I paused by a stream, watching the water rush past, its surface smooth and unbroken despite the rocks below. The world around me seemed at once calm and unsettled, as though it was a place caught between two moments, suspended in time."

=====

Question:

Based on the text, what can you infer about the atmosphere of the forest? Use evidence from the text to support your answer.

Why do you think is your answer correct?

Part 5: Reading Task (5 marks)

Instruction: Read the passage and choose the correct option (a, b, or c) for each question.

Passage:

"Many people believe that hunting is harmful to wildlife, but others argue it helps manage animal populations. In some areas, hunting provides food and economic opportunities for local communities. However, overhunting can lead to the extinction of certain species and disrupt ecosystems."

Questions:

1. What is one argument in favour of hunting?
 - a. It provides food and economic benefits.
 - b. It always harms wildlife.
 - c. It increases pollution.
2. What is a danger of overhunting?
 - a. More people will hunt.
 - b. Some species might become extinct.
 - c. Hunting will become too expensive.

Part 6: MAZE Task (4 questions)

Instruction: Read the text and choose the correct option (a, b, or c) to complete the sentences.

"Wild animals live in their natural habitats, which must be protected from destruction. Cutting down trees harms forests and _____ (a. threatens / b. protects / c. improves) the homes of many species. Recycling paper helps _____ (a. save / b. destroy / c. reduce) trees and reduce waste. People need to make efforts to _____ (a. cause / b. solve / c. waste) environmental problems."

Part 7: MAZE Task (8 questions)

Instruction: Read the text and choose the correct option (a, b, or c) to complete the sentences.

Text (190 words):

"Recycling is an important way to protect the environment. By _____ (a. planting / b. recycling / c. cutting) materials like paper and plastic, we reduce waste and conserve resources. Many communities _____ (a. require / b. avoid / c. ignore) residents to sort their trash for recycling. This process _____ (a. damages / b. supports / c. slows) efforts to reduce pollution. However, some people still _____ (a. struggle / b. enjoy / c. succeed) to recycle due to a lack of convenient facilities. Governments can help by providing _____ (a. free / b. expensive / c. difficult) access to recycling programs and educating the public about its benefits."

Part 8: Multiple Choice Reading (5 questions)

Read the text and choose the correct answer (a, b, or c).

"Plastic pollution is one of the biggest threats to the ocean. Every year, millions of tons of plastic waste enter the sea, affecting marine life. Animals such as turtles and fish often mistake plastic for food and can become sick or die. Recycling and reducing plastic use are key ways to solve this problem. Some countries have banned single-use plastics, which helps _____ (a. increase / b. reduce / c. maintain) pollution. Everyone can play a role by using reusable bags and bottles."

Questions:

1. What is one way plastic pollution affects animals?
 - a. They avoid it.
 - b. They eat it and get sick.
 - c. It helps them grow.
2. What is one solution mentioned to reduce plastic pollution?
 - a. Using more single-use plastics.
 - b. Using reusable bags and bottles.
 - c. Ignoring the issue.

=====

Part 9: Multiple Choice Reading (2 questions)

Instruction: Read the text and choose the correct answer (a, b, or c).

Text (230 words):

"Conserving water is essential for the environment. Many areas around the world face water shortages due to overuse and pollution. Simple actions, such as fixing leaks and turning off taps, can save significant amounts of water. Governments also encourage people to use water-saving devices in their homes. While these solutions are effective, some argue that _____ (a. stricter laws / b. ignoring the issue / c. banning all water use) are needed to prevent waste."

Questions:

1. What is one way to conserve water at home?
 - a. Fixing leaks.
 - b. Using more water.
 - c. Ignoring taps.

 2. What challenge is mentioned regarding water conservation?
 - a. People have enough water.
 - b. Stricter laws might be needed.
 - c. Water-saving devices are useless.
-

Part 10: Multiple Choice Reading (8 questions)

Instruction: Read the text and choose the correct answer (a, b, or c).

Text (300 words):

"Wildlife conservation is a global effort aimed at protecting animals and their habitats. Deforestation, pollution, and hunting are major threats to many species. Conservation programs focus on educating people about the importance of wildlife and creating protected areas like national parks. These parks give animals a safe place to live while attracting tourists who help fund conservation efforts. However, some

critics argue that _____ (a. development / b. restrictions / c. efforts) on local communities can cause tension and limit economic growth."

Questions:

- 1. What is the primary goal of wildlife conservation?**
 - a. To increase deforestation.
 - b. To protect animals and their habitats.
 - c. To promote hunting.
- 2. What is one major threat mentioned to wildlife?**

- 3. What do conservation programs focus on?**
 - a. Educating people and creating protected areas.
 - b. Encouraging hunting activities.
 - c. Limiting tourism in national parks.
- 4. How do national parks contribute to conservation?**
 - a. They harm animal habitats.
 - b. They give animals a safe place to live.
 - c. They reduce the need for conservation programs.
- 5. What is one benefit of national parks mentioned in the text?**
 - a. They attract tourists who help fund conservation efforts.
 - b. They allow for unrestricted development.
 - c. They eliminate economic problems for communities.
- 6. What do some critics say about conservation programs?**
 - a. They cause tension in local communities.
 - b. They are entirely effective.

- c. They always promote economic growth.

7. What is the missing word in the text?

- a. development
- b. restrictions
- c. efforts

8. What challenge is highlighted about conservation efforts?

- a. They focus too much on deforestation.
- b. They may limit economic growth in some areas.
- c. They ignore the importance of educating people.

=====

Part 10: Multiple Choice Reading (3 questions)

Instruction: Read the text and choose the correct answer (a, b, or c).

"Recycling has become a common practice in many parts of the world. It helps reduce waste and save resources like water and energy. Despite its benefits, some people do not recycle regularly. One reason is the lack of awareness about how important it is. Educating the public and _____ (a. simplifying / b. complicating / c. ignoring) recycling processes can encourage more people to participate."

Questions:

1. What is one benefit of recycling?
 - a. Reducing waste.
 - b. Increasing waste.
 - c. Destroying resources.
2. What is a challenge mentioned in the text about recycling?
 - a. Lack of awareness.
 - b. Too many people recycle.
 - c. It wastes time
