In some hot, wet places, people build houses on stilts. These houses are built high above the water or land. The air blows under the houses and keeps them cool.

Beehive houses

These houses are made of mud, water and dry grass. People build these houses in some hot, dry places. The mud walls and very small windows keep the homes cool.

Skyscrapers

In cities all over the world, people live in tall buildings made of metal, concrete and glass. Burj Khalifa has more than 160 floors and 57 lifts.
