Caterpillar to Butterfly

One day our teacher brought a caterpillar to school in a jar. It was eating green leaves. This tiny caterpillar was going to change into a butterfly. Caterpillars usually turn into butterflies outdoors. But we watched our caterpillar change into a butterfly right in our classroom.

1. What was the caterpillar eating when the teacher first showed it to the children?

1. What was the caterpillar eating when the teacher first showed it to the children?
2. Where did the children watch the caterpillar turn into a butterfly?

Sans Serif • **B** *I* U ~~S~~ A ~~A~~ ≡ Normal •

1) It was eating green leaves.

2) They watched it in the classroom.

Summer Skills: Caterpillar to Butterfly

hungry. It ate its own eggshell! Then it started to eat green plants right away.

The caterpillar's job was to eat and eat, so it would grow. Each day it got bigger and bigger.

3. Why did the egg need to be on a leaf?

Sans Serif • **B** **I** U ~~S~~ **A** ~~A~~ ≡ Normal •

3) The caterpillar could eat it.

What is the first thing the caterpillar did when it hatched?

a. choose a leaf

b. ate its eggshell
