Last summer, I went on a holiday with my family, and it was full of surprises! We travelled to a beautiful town by the sea, and the beach was our favourite place. Every morning, we went there to swim and play football in the sand.

One day, we decided to go on a boat trip to see wildlife. We were excited to see dolphins, but instead, we saw a big sea turtle swimming near our boat. It was amazing! We also saw colorful birds flying over the water. I felt like we were in a nature movie!

At lunchtime, we found a small restaurant by the water. The menu had fresh fish, fruits, and vegetables. I chose a fish sandwich, while my sister ordered a fruit salad. After lunch, we visited the local museum. There was a big section about the ocean and the animals that live there.

On our last day, we took a camel ride through the hills. The view was fantastic, but as we went further, our guide stopped suddenly. He pointed to something strange on the ground. There, half-hidden in the sand, was an old, mysterious map. What secret would it lead us to?

#### **A future career**

Every day before going to school, Fatima has been looking online for roles in technology. Fatima is in her last term of school, so she has been thinking a lot about what she wants to do the next year.

Fatima's father has always had a strong opinion about where she should work. "I believe my daughter should work in a nearby hospital here in Dubai," he would often say.

"You have been so creative in school, Fatima. I think you would be a great artist," her mother would say. However, she thought the most important thing was for Fatima to go to university so she could get a well-paid job.

Fatima has recently decided that having a job that gives her the ability to travel would be best for her. Last week, she spotted a job advertisement for a trainee web designer. It read: We are looking for a candidate with good personal and communication skills. The job involves frequent travel to Germany and France. Although you do not need to have a degree in IT (information technology), having some experience in web design would be good. We provide a positive working environment and all the equipment you need. The candidate can manage their daily working hours by organising their own timetable.

I love getting work done in the morning. I want to apply! she thought.

"I didn't know that you wanted to work abroad. I always thought you wanted to be close by," said Fatima's father while he looked at a photo of himself and Fatima when she was a baby.

"I do, but right now I want to travel. I didn't know that it might be difficult to get a job in another country as a doctor. That worried me!" she explained.

"You will not find a job with a good salary unless you get a degree Fatima," he explained.

"The salaries in IT can often be much higher than in medicine because of the benefits," she said. After pausing for a moment, Fatima's father tried to show support by giving her a weak smile.

**Ali's Favorite Hobby**

Ali loved the sound of water splashing against the rocks. Fishing had always been his favorite activity. Every Saturday morning, he would wake up early, take his fishing things, and go to the lake near his village. It wasn't just about catching fish; it was the quiet and calm by the water that he loved the most. One Saturday, while Ali was sitting by the lake, something strange happened. As he threw his fishing line into the water, he saw something shiny floating nearby. Curious, he pulled in his line and used the hook to bring the object closer. It was a small, locked metal box covered in dirt and plants.

Ali's heart started beating fast as he held the box in his hands. What could be inside? A treasure, maybe? He quickly packed his things and ran home to open it.

After looking around the house, he found an old screwdriver. With shaking hands, he opened the box. Inside, he found a bundle of old letters tied with a red ribbon and a small key. The letters were written to someone named Zainab, but there was no name of who wrote them. Who was Zainab? And what did the key open? Ali knew his quiet weekends at the lake would now be much more exciting.
