UNIT ONE
LIFE EXPERIENCE

I. Reading

A. Read the following passage then answer the questions below :

Close your eyes and imagine a world without the electric light. How would life different? What would you use to give light?

Thomas Edison changed our homes and cities. He invented the modern electric light bulb. Before that, people used to light their homes with candles and oil lamps. Streets used to be dark because street lamps were powered by gas. These lamps weren't bright like street lights today.

But Edison's invention changed all that, lighting up homes and cities with light that was safe, cheap and long lasting. He didn't invent the first light bulb but he improved the idea very much. He made it possible for millions of people to use electric light in the way that we use it today.

Edison was born in 1847 in the USA, when few people understood electricity. His school teachers thought he was 'difficult' because he got distracted easily. His mother was angry at his teachers' attitude and decided to teach him at home instead. She was a very good teacher. Edison grew up to be one of the most important inventors of the 20th century. Besides the modern light bulb, he created 1093 other inventions in his lifetime.

1. Choose the right word :

1. The text is mainly about _____.

- a. Benz b. Edison c. Ford

2. Edison invented the electric _____.

- a. car b. telephone c. light bulb

3. In the past, people used to light homes with _____.

- a. candles b. light bulbs c. candles

2. Read, then mark (√) or (×):

- a. Streets used to be dark in the past. ()
b. Edison invented the light bulb only in his life time. ()
c. Edison was born in 1847 in the Britain. ()

3. Answer the following questions in full sentences:

a. How were streets before the light bulb invention?

- -----

b. Did Edison change our world? How?

- -----

B. Read the following text and answer the questions below:

What would we do if we didn't have wheels?

In my opinion, the most important invention of all time is the wheel. Without the wheel, people could not travel anywhere very easily or quickly. We depend on the wheel for all our transport, such as cars, trains and planes (because planes need wheels to take off and land). If we had to travel long distances without the wheel, it would be very difficult. It would also be difficult to see other cities and countries. This means that we wouldn't know about other places and our world would be very small.

If we didn't have the wheel, people wouldn't be able to work easily and efficiently. This is because we need wheels to travel, but also because we need wheels to carry things.

Without wheels, people would have to carry heavy things in other ways, for example by themselves or using animals. Wheels are also a very important part of machines in factories and on farms because they make the machines work. These kinds of wheels are called 'cogs'.

There are lots of very important inventions that have changed the world. But I think that the wheel is the most important for these reasons.

1. Choose the right word :

1. The text is mainly about _____ .

- a. cars b. wheels c. planes

2. without wheels people couldn't _____ .

- a. travel b. work c. a and b

3. planes need wheels to take off and _____ .

- a. work b. fly c. land

2. Read, then mark (√) or (×):

- a. Wheels are a very important part of machines in factories. ()
b. It would be very easy if we travel without wheels. ()
c. Wheels of machines in factories are called (cogs). ()

3. Answer the following questions:

a. Why wheels are important for people?

- -----

b. Is the wheel the most important invention for you? Why?

- -----

II. Writing

A. Write four sentences about free-time activities that you like.

➤ Use phrases like { I love / quite like / prefer / I'm good at }

1. _____
2. _____
3. _____
4. _____

B. Write down four questions to ask a person about free-time activities.

➤ You can use different question words as ...

(Where / When / Who / What)

1. _____
2. _____
3. _____
4. _____

C. Write four sentences about things you (have or haven't) experienced.

➤ **Example :** * I have been to a very cold country

*I haven't eaten any Italian food.

1. _____

2. _____
3. _____
4. _____

D. Write a short biography about ' a well-known person you admire' .

➤ These subtitles may help you ...

- *His life*
- *His achievements*
- *His interests*
- *Why do you admire him ?*

Best Wishes
