The film was made in 1993.

all. She sat for a while, catching her breath, and then she looked back toward her parents and the car, to see how far she had come.

Her mother waved, beckoning her to return. Tina waved back cheerfully, pretending she didn't understand. Tina didn't want to put sunscreen on. She wanted to stay right here. Now her mother was calling to her, and Tina decided to move out of the sun, back from the water, to the shade of the palm trees. Tina sat in the sand, and kicked the dried mangrove leaves. She noticed many bird tracks in the sand. Costa Rica was famous for its birds. In the sand, some of the three-toed bird tracks were small. Other tracks were large, and cut deeper in the sand. Tina was looking at the tracks when she heard a chirping, followed by a rustling. The chirping was probably some ocean bird. She waited quietly, not moving, hearing the rustling again. A few yards away, a lizard emerged from the mangrove roots and peered at her.

I saw Rapunzel at the cinema last Friday with my sister. It is an animation film. The film is about a beautiful girl with very long hair, living in a house with a witch. The movie is set in the witch's garden and the tower. In my opinion, it is a great film. The scenes and the plot are wonderful. The special effects are amazing. The characters are well chosen. I would recommend this film for other people to see, especially for young people.

What about you? Have you watched any film recently?

Yours,

Sara

A person you admire

H.H Sheikh Zayed

The person I admire is H.H Sheikh Zayed Bin Sultan Al-Nahyan, the first president of the UAE. He was born in Al-Ain city around 1918. He was the ruler of Abu Dhabi, then the first President of the UAE.

Sheikh Zayed had many interests and hobbies like falconry and horse - riding. He also had a number of achievements. For example, he united the nation in 1971 and made sure everyone had access to water.

Sheikh Zayed died in 2004. He was a national leader and everybody loved him.

J.K Rowling

J.K. Rowling is a famous British author. She was born in the UK in 1965. When she was young, she always wanted to be a writer. She studied French at a university in the UK and became a teacher. In 1990, she started writing her first book. She called it Harry Potter. It is about a young wizard boy. The first Harry Potter book was published in 1996. It was sold out very quickly because both children and adults like to read it.

I think that J.K Rowling is inspiring because she inspired people to be the best they could be no matter what. Her life story teaches us to never give up and if we have a dream, we should work hard to reach it.

Staying fit and healthy plays an important role in our life. Here are some tips to stay healthy. First, you should eat healthy food such as fruit and vegetable. Read the TWO texts then answer the questions below.

Text A:

Spider monkeys live in the tropical rainforests of Central and South America. They usually live high up in cecropia trees and almost never come to the ground. Some are endangered because their habitat is being destroyed.

They have got thick, black, brown or red fur and four long limbs. They've also got a very strong, long tail which they use to hang upside down from the branches of the trees. Their favourite food is fruit which they pick with their long arms, but they also eat seeds, nuts, plants and honey.

Spider monkeys live in groups of 20 or more and are diurnal (active during the day). They love swinging from tree to tree! However, these monkeys are not very sociable. When they see a human, they often scream or jump up and down shaking the branches of the trees!

Text B:

The two-toed and three-toed sloths live in the rainforest of Costa Rica. They have got a thick, grey, furry coat and long, sharp claws and very tiny ears, so they don't hear very well. They have got a short, flat head but have got excellent eyesight and a good sense of smell.

Sloths are herbivores but they don't eat a lot. They eat leaves, fruit and other plants very slowly with their small teeth. They spend most of their time hanging upside down in the trees sleeping! Even when they are awake they don't move!

A sloth can sleep for 15 to 18 hours each day! They are also the slowest mammals on Earth. It takes them a month to move 1 kilometer!

It was fun to jump with the waves. Then, they went in the house and ate sandwiches and strawberries for lunch.

Becky wanted to play on the beach that afternoon. Aunt Agatha told her it was too hot to go outside without a hat on. Becky didn't have a hat.
