## Grade 6: Checkpoint 1

### Reading

Name:

Grade: 6/

#### Reading 1

##### Read the passage and select A, B or C for 1-5.

My name is Sami. My best friend is my pet dog. It is my birthday present. Finally, my parents agreed that I could have a dog!

My parents told me that I must take care of it. I have to feed it, take it out for a walk, keep it clean and make it exercise. It is a lot of hard work but I do it with great pleasure because I love my pet.

I call it Tommy. It is a small dog. It is brown and has long ears. It is quite gentle, friendly and extremely active.

We spend much time with one another, and we do lots of things together such as running, playing hide and seek and fetching the ball. It is so much fun.

Tommy behaves very well at home - it is always clean never messy. So, my mother allows it to sleep in my bedroom at night. It is nice because I like being with it.

Tommy guards the house and doesn't let any stranger inside. It is very wonderful to have a pet dog.

##### Select A, B or C:

1. Who is Sami's best friend?  
A) Tommy                      B) Rashid                      C) Hamad
2. How is Tommy?  
A) untidy                      B) lazy                      C) friendly and active
3. How does Sami take care of Tommy?  
A) Tie it with a leash      B) Feed it                      C) Watch it
4. What do Sami and Tommy play together?  
A) Tennis                      B) Hide and seek      C) Handball
5. How does Tommy protect Sami's house?  
A) It plays outside.      B) It sleeps outside.      C) It doesn't let anyone stranger inside.

## Reading 2

Read the passage below and underline True or False for 1-5.

Elephants are big animals. They are the largest animals to live on land. They are of two types: the Asian elephants and the African elephants. A male, African elephant can weigh up to six thousand kilograms. Elephants can be up to four meters tall. Elephants need to live in very large areas because they eat and drink so much. Every day, elephants spend about sixteen hours eating. They eat up to 200 kilograms of food and drink over 250 liters of water daily. Elephants have very big but very thin ears. Elephants use their ears to cool themselves down. An elephant's trunk can smell food, water, and predators. Their tusks are long and curved teeth. Elephants use their tusks to dig for food and water and to fight. Elephants need very strong legs to support their heavy bodies.

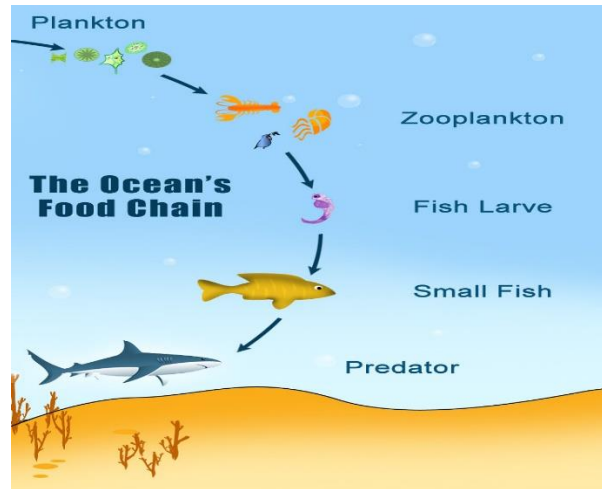

Underline the correct answer – True or False.

- |   |      |       |
|---|------|-------|
| 1. The largest animals to live on land are elephants. | True | False |
| 2. There are four types of elephants.                 | True | False |
| 3. Elephants use their ears to cool down.             | True | False |
| 4. Elephants spend sixteen hours eating in a day.     | True | False |
| 5. Elephant's truck can't smell food.                 | True | False |

## MAZE 1

Please read the passage and circle the correct answers for 1-10.

### Food Chain

Did you know that the ocean food chain **(1. begin/begins/began)** with very small plants? The small plants make **(2. its/their/his)** own food from the **(3. Sun's/sons/Sun)** energy. In the ocean, **(4. there/their/there are)** very small animals called plankton. The little plankton **(5. eats/eat/eating)** the very small plants. The next link in the food chain **(6. was/is/are)** jellyfish and starfish. **(7. These/They/This)** animals eat plankton. **(8. Then/Finally/ Firstly)** the jellyfish and starfish are eaten by the small fish. **(9. Thirdly/Finally/Second)** the small fish **(10. eat/are eaten/ate)** by the larger fish.

MAZE 2: Please read the passage and circle the correct answers for 1-10.

Lion or tiger?

Who (1. **would/was/is**) win a fight – a lion or a tiger? Well, if size (2. **has/is/have**) anything to do with the matter, the tiger would win. That’s because tigers are the (3. **larger/large/largest**) of all cat species. They (4. **grow/growing/grew**) up to eleven feet long and weigh as much as 303 kilos. This makes tigers the third largest land carnivore animals. The only larger land carnivores (5. **is/are/was**) the polar bears and brown bears. Tigers are not only large (6. **but/so/not**) also fast. You might think that such large, ferocious animal (7. **doesn’t/did not/don’t**) need help to survive, but they do. The (8. **elephant/tiger/bear**) is (9. **an/a/ the**) endangered species. Tigers face a (10. **bit/high/low**) risk of extinction.
