d. (this is too difficult)

Ibn Sina

Ibn Sina was a clever man. He was an important doctor who helped people a lot. When he was a child, he was a very good student. He studied many subjects at school but he really liked science. When he was seventeen, he got a job as a doctor. However, he did many other things too. He travelled to many countries and wrote a lot of books. He wrote more than one hundred books about medicine, science and life. He died on 22nd June, 1037, but Ibn Sina's books are still read by people today.

My car is _____ your car.

a. behind

b. above

c. between

d. (this is too difficult)

Dear Hind,

Thank you for your letter. It is wonderful to hear from you. I am happy you had a good vacation. I also had a wonderful holiday. I went to the Maldives with my parents. It is a beautiful place with great weather. I loved the clear blue water. I also liked the green trees that were everywhere. It was quiet. There were many birds, lizards, and even insects. I had my camera, so I took lots of pictures of them. I met a girl who told me that the Maldives is made of over a thousand little islands. I thought that was really interesting. I wanted to visit more islands but I didn't have enough time. That whole week went by so fast. It was an amazing summer.

Yours,
Aisha

b. quicks

c. quickly

d. (this is too difficult)

The Seahorse

Did you know that a seahorse is a fish? It lives in the sea, but it doesn't look like other fish at all. It is called a seahorse because it has a long neck and a head that looks like a horse. However, the other end of its body is long like a snake. They can use their body to hold on to things because they can't swim very well. Seahorses are the slowest fish because they only have a little fin in the middle of their back.

Seahorses don't have teeth, so they can't eat food like other fish. They must eat their food in a different way. They pull food into their mouths through their long noses instead.
