b. quicks

c. quickly

### Ibn Sina

Ibn Sina was a clever man. He was an important doctor who helped people a lot. When he was a child, he was a very good student. He studied many subjects at school but he really liked science. When he was seventeen, he got a job as a doctor. However, he did many other things too. He travelled to many countries and wrote a lot of books. He wrote more than one hundred books about medicine, science and life. He died on 22nd June, 1037, but Ibn Sina's books are still read by people today.

Ibn Sina \_\_\_\_\_ at school.

a. wasn't lazy

b. didn't work

c. couldn't learn

Why is Ibn Sina still famous now?

a. He is still writing new books today.

b. He still helps people to get well.

c. People are still interested in his work.

What is the text about?

a. A famous person's job

b. One person's life

c. The things people like doing

Dear Hind,

Thank you for your letter. It is wonderful to hear from you. I am happy you had a good vacation. I also had a wonderful holiday. I went to the Maldives with my parents. It is a beautiful place with great weather. I loved the clear blue water. I also liked the green trees that were everywhere. It was quiet. There were many birds, lizards, and even insects. I had my camera, so I took lots of pictures of them. I met a girl who told me that the Maldives is made of over a thousand little islands. I thought that was really interesting. I wanted to visit more islands but I didn't have enough time. That whole week went by so fast. It was an amazing summer.

Yours,  
Aisha

What is the letter about?

- a. A family holiday
- b. a special animal
- c. a weekend trip

What did she take photos of?

- a. The weather she liked
- b. the animals she saw
- c. the girl she met

Why didn't Aisha go to more islands in the Maldives?

- a. The weather was too hot
- b. The girl told her they were too boring
- c. Her holiday was too short

## The Seahorse

Did you know that a seahorse is a fish? It lives in the sea, but it doesn't look like other fish at all. It is called a seahorse because it has a long neck and a head that looks like a horse. However, the other end of its body is long like a snake. They can use their body to hold on to things because they can't swim very well. Seahorses are the slowest fish because they only have a little fin in the middle of their back.

Seahorses don't have teeth, so they can't eat food like other fish. They must eat their food in a different way. They pull food into their mouths through their long noses instead.

How is a seahorse very different to other fish?

- a. They are not the same shapes as most fish.
- b. Their necks are like snakes.
- c. They swim like horses, not fish.

Why do seahorses find it hard to eat?

- a. Their head is the wrong shape.
- b. They have no teeth.
- c. Their long neck makes it difficult.

This text is mainly \_\_\_\_\_.

- a. Discussing how seahorses eat food
- b. Describing what seahorses look like
- c. Giving information about seahorses
