### Dubai Aquarium

I am bored. Are you free on Thursday? Let's meet at 7:00 PM and go to Dubai Aquarium. It is the largest aquarium in the world. It is 48 meters long and built over three floors in Dubai Mall. It is home to thousands of sea animals and has over 400 sharks and rays. You can also see penguins, sawfish, octopuses and many other animals. All the animals that live in the aquarium need water to live.

There are many things to see and do there. You can try feeding the fish. My favourite activity is playing with the penguins. If you like diving, you will enjoy swimming with the sharks there. An amazing activity which I tried and you should not miss is the glass-bottom boat ride. You can see all the sea life below you. The view from there is amazing. The animals look very big. I would tell everyone to visit this place at the weekend. It is a journey that you will never forget.

**Saad wants to go on the hike because \_\_\_\_.**

a. he always wanted to go on his own

b. he thinks they will have a good time

### The Hike

You mustn't do it alone. "The hiking path is small and the area is too dangerous," Grandfather said. "I think it will be fun," said Saad.

Saad and Ali always wanted to go on the hike together, without their grandfather. "This is one of the best views I have seen. It's even more beautiful than Wadi Shawka," said Ali to Saad. The area was very green because of the rain fall.

Ali didn't forget what their grandfather said, "If you go on your own, take enough water and food. It can be dangerous if you get lost or injured on the hike. Have a meeting point in case one of you gets lost. Look for signs and walk slowly back to where you came from if you think you're lost. Watch where you are going carefully. When it rains, you must follow the signs because the area can get filled up with water very quickly."

### Caring for a Horse

Taking care of a horse is not **1** (as same as / the same as / as similar to) taking care of a house pet. A horse requires much more care and attention. However, the main advice to follow when caring for one is **2** (ever / quite / already) simple.

First, to own a horse, I would **3** (tell / think / advise) you to keep it grazing in a field where it can be with other horses. Secondly, you must keep it in a stable when it is hot. You **4** (may / might / mustn't) keep it in the sun all day long because it is dangerous for the horse. Finally, **5** I (certain / believe / recommend) it is important to exercise, feed and groom the horse so it stays healthy.

3. advise

### Cut Them Down!

The documentary *Cut Them Down!* is about how forests are being destroyed. It was the best documentary I have ever seen. Although many of the pictures were very sad to see, I believe it is a very interesting documentary to watch. It had lots of new information about the issue that we mustn't avoid. I would advise everyone to watch it because I learned so much from it. I have been reading a lot about the problem recently. That made me think that there was no way to save the forests.

Rainforests are areas of tall, mostly green, trees. They are found in many parts in the world including Africa, Central Asia and Australia. The biggest rainforest in South America is the size of America! Rainforests are humid with high amounts of rainfall. Rainforests are the perfect environment for animals to live in. The weather is quite warm and never too hot or cold.
