Malak and her Friends: Their Future Plans

Hadeel and Fatma are my best friends. My favourite subject is Maths. Next year, Maths classes will be harder, but I need it because I am going to be an architect. Hadeel loves to draw and she has so many ideas for new fashions. Her favourite class is Art but she doesn't like Maths. She wants to be a fashion designer. Fatma likes reading and writing about the past. She enjoys English classes, but her favourite subject is History. Fatma is going to be a teacher in the future. We are going to have different jobs, but we will always be friends.

		① Art	History

Read the text about Salman who talks about his new hobby. For questions 16-20, choose the correct answer from the box to complete the sentences. There are more answers than you need.

Salman's New Hobby

I've been interested in juggling for many years, so when my friend gave me some juggling balls a few months ago I was very excited. I started straightaway, but it took me a few weeks to learn. I started with two balls and now I can juggle with three. I haven't tried four balls yet, but I'm going to soon.

A friend of mine is teaching me and he's really good. He told me about some videos you can watch online, but I haven't seen any yet. Many people find juggling difficult. You don't have to be very agile to juggle, but you do need coordination. That gets better with practice though. I wasn't very confident at the start, but I am now. Many people have asked me why I like juggling. I think it's a great activity. I know some people like it because they get to perform in front of people. I don't want to do that. I just do it for myself because I find it really relaxing. When you concentrate on the balls, you forget about other things in your life and that's really good for you. It's much better than watching TV. And you can do it whatever age you are. I think everyone should try it.
