What is a paragraph?

- It usually has more than 5 sentences.
- It has a **topic sentence**. A topic sentence is the first sentence in a paragraph, it answers the main question.
- It has **supporting details**. Supporting details are more information, they answer the smaller questions.
- It has a **conclusion sentence**, this sentence ends the paragraph.

Example:

→ The warm weather allows me to play outside. I play under the sprinkler with my brother. We run through the water and scream each time! At night, I play hide and seek with my friends. I usually hide behind a big bush. I love it when the weather is warm!

What are the parts of a paragraph?

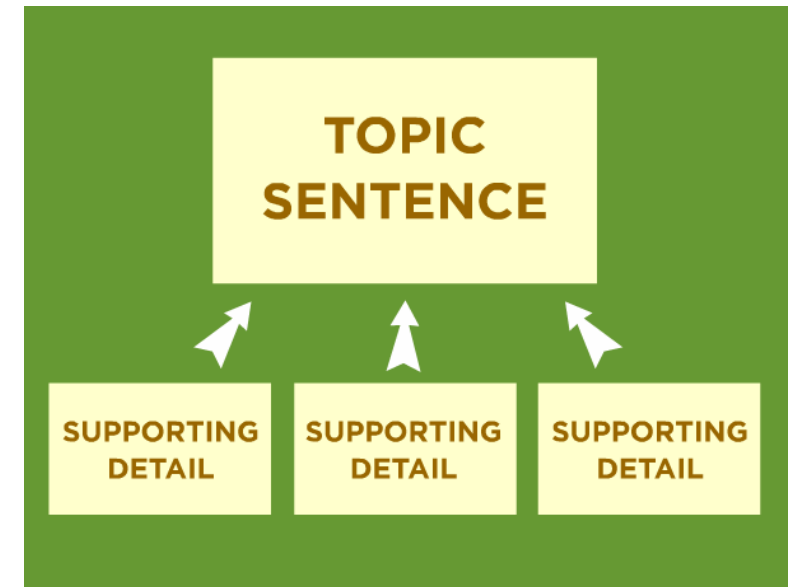

What is a topic sentence?

- A paragraph includes a **topic sentence**. A topic sentence is the first sentence in a paragraph, it answers the main question.

✓ 1 Our school day lasts for six and a half hours.

✗ 2 Our school day is short and always fun!

In school, we have eight lessons a day. Some lessons are fun and some are not. We have a break in the middle of the day. Then we go home at two o'clock. The school day is long and sometimes tiring.

Topic Sentence

Example:
The warm weather allows me to play outside. I play under the sprinkler with my brother. We run through the water and scream each time! At night, I play hide and seek with my friends. I usually hide behind a big bush. I love it when the weather is warm!

What should we always REMEMBER when writing paragraphs?

- Read the question carefully.
- Answer all parts of the question.
- Write full sentences.
- Start your sentences with capitals and end them with full stops.
- Add many details to make your sentences longer, always ask yourself why did I write this?
- Use linking words like because to explain your point.
- **DON'T** use and or because to start the sentence.
- **DON'T** write very long sentences without full stops.
- **DON'T** forget to read your writing again to check for mistakes.
- **DON'T** use google translate or search online for answers because that is CHEATING!
