Text

Mariam's Work Experience

Mariam was thrilled to work at her uncle's environmental company. She studied Natural Sciences and was interested in protecting the environment. She believed that introducing some of her ideas would help reduce unnecessary water use at the company.

On her first day, she walked confidently into the building. Her uncle, Salem, introduced her to the team. They all greeted her and Salem showed her to her desk. She found that she was very familiar with the company computer systems and she began to work but, after a while, Mariam heard the employees whispering and felt they were staring at her. When she tried to talk to them, they just smiled and walked away.

Mariam's first task was to answer phone calls. When her uncle told her that he wanted her to learn communication skills, she paused for a second, raising her eyebrow, but she reluctantly agreed. A few weeks had passed, and Mariam was still handling customers' calls. Although she had made many good contacts with customers, she was losing interest slowly, especially after the employees hadn't been supporting her. However, she kept quiet and continued doing her work.

Mariam wasn't happy with her work situation and the company's management style, so she had a meeting with her uncle. In just three weeks, Mariam was taking on many tasks a day and was consumed by passion for the job! Salem was pleased to see Mariam work with enthusiasm and started taking her to management meetings. She really wanted to prove she could handle bigger tasks and made good contacts with some senior managers. However, Mariam secretly wished she had help from the team.

Mariam frequently asked the team if they needed help with their work, but they would always refuse and never showed up for meetings. Then, Mariam would end up staying late at work because her team failed to meet deadlines. Mariam would end up with more work because she had to cover for everyone. The team also rejected all her ideas, despite the fact that they could reduce waste and help the environment.

Mariam had been getting headaches for days, so she went to the hospital for a checkup. Her blood pressure was high, and the doctor advised Mariam to rest for a week, which was a better solution than taking medicine. Mariam thought about all the effort she had put in, and all those long hours she had spent finishing the team's work. She was frustrated.

"I won't tell my uncle anything. I will manage the team myself when I go back next week. I'll show them I can handle anything!" she said with a confident smile. Mariam had a master plan, and she couldn't wait to go back to work.

Part 4: Inference Question

Write your answer below. Use full sentences.

What was Maryam's plan?

Handwriting practice area with a solid top line, a dashed middle line, and a solid bottom line. The area is currently blank.

Part 4: Justification Question

Write your answer below. Use full sentences.

Why is your answer to the inference question the best answer?
Use the information in the text above to support your answer.

Handwriting practice area with a solid top line, a dashed middle line, and a solid bottom line. The area is currently blank.

Write your answer below. Use full sentences.

Imagine you took a trip into nature and something went wrong.

Include information about:

- why you went to the place.
- what you would do differently next time.
- if this area might change in the future.

Write at least 100 words in paragraphs.

A series of horizontal dotted lines for writing.

Read the text and **circle** the correct word(s) to fill the gap.

Danger on the Island

Morris Island is an island in the Pacific Ocean which is an important habitat for many species of birds. Many birds use this stunning island **1** _____ fish. However, rising sea levels – with tsunamis and flooding – have created many problems. Recently, scientists who **2** _____ to the island have returned to warn of the effects.

According to their reports, some of the waves were **3** _____ seen. There is a lot of concern about the effects on the bird population here. Some species of bird **4** _____ to other islands, possibly never to return. Now, these scientists warn that this land **5** _____ flooded in water in five years. The local government have said that more must be done to stop this problem. They announced that new sea walls **6** _____ to help protect the birds' land.

One scientist said, "It **7** _____ be the effects of climate change. That is very clear. If we **8** _____ these rising sea levels, we would help to protect this area for future generations." This is another example of how we need to work together to save the environment.

1.

- a. they are hunting
