→ Career is a necessary part of person's life. It provides a sense of financial stability and personal growth. A career is a path that people choose to follow, which involves developing skills, gaining experience.

People's career choices are affected by many factors, including their interests, skills, values, and personal circumstances. Some people choose careers that related to their passions, such as art, music, or sports. Others may choose careers that offer financial stability or social status, such as medicine, law, or engineering. Advances in technology may create new career opportunities in fields like artificial intelligence.

The future career requires some skills like speaking a new language fluently and using technology. It also requires, High qualification, education training and experience. Moreover the person should have some personal qualities like confidence, creativity, and honesty. Loyalty, working in team and hardworking Career development often involves a process of continuous learning, skill-building, and networking, as people adapt to new challenges and opportunities.

In conclusion, people and careers are closely intertwined. Career choices are shaped by a variety of personal and societal factors .As the world continues to change, it is essential that people have the skills, knowledge, and training.

Write a paragraph your dream career (120 words)

*What is the name of the career?

What are the advantages of your future career?

What are the disadvantage of your future career?

How can you plan for your future career?

Every one dreams of their future career. It is important to know that every career has advantages and disadvantages at the same time.

When I grow up, I want to work as a doctor my father. This job has some pros and cons at the same time .The doctor works in a hospital and health care centers. The good points of this job is that you can get a high salary and a good social position. The doctor feels satisfied with your achievement when he helps sick people. Being a doctor is rewarding, you have responsibility to use your knowledge and experience to help sick people.

However the job of doctor is tiring and stressful .After studying for seven years studying medicine and the human body. The doctor always working. Even you are in vacation you can be called at any time in emergency. Sometimes he stays sleepless night with deep thought and responsibility so this job has a lot of responsibility as it connected with people's lives.

It is necessary to plan for my future career. I should have a plan to achieve his goals. The aims of career should be realistic, achievable .First of all ,I should think of my lifestyle and interests ; what I like and what I don't I like if I need a relaxed job or one need to travel. I think of my skills and abilities too.

Moreover I should ask my family members and people who work this job as they have more experience than me .They will give me a clear picture of the advantages and disadvantages of this job. I can join in a voluntary work a summer job to have more experience and practical skills.

I need to think of my education. I should study hard to have high qualification .I can attend youth forum that the government provides to youth to help student know more about career, know which jobs are available and needed nowadays. This a good opportunity to explore my personal strength and areas of interests.
