1-Describing a city

* Manama is located in the north of Bahrain. It has population of over 150000 It was founded in 1940. Manama has been the capital of Bahrain since 1971. The weather is hot and sunny in summer but it is cold and windy in winter. The main language is Arabic and English is spoken too. Islam is the main religion in Manama. You can travel there easily because there are many modern means of transport.

** There are many places to visit in Manama. For example: Al khamis mosque, city center and Bahrain gate People can also see Seef mall and Bahrain national museum.

*** There are many things to do in Manama as people can go shopping in the malls, you can also go to the gardens, for people who like water sports, they can go swimming ,diving and sailing. People can also have their best meals in the international restaurants.

****Manama is a very nice city , one can bring light clothes in summer because the weather is hot .

2-A reflective blog

Hi I'm Hamad I'm a student at Bahrain university .At the moment I'm studying art for six months in London as a part of my program.

*Wednesday May 10

At first When I arrived here I was so depressed and homesick but as the courses began I got busy and made friends which helped me get better . Yesterday we visited some museums here. It helped me understand the culture and art better. I also became good at speaking English.

*Saturday May 23

I've just begun my courses . There are so many projects to do and exams to study for which taught me to organize my time and take responsibility for my actions . My room is always clean and tidy and I do my laundry regularly, cook meals with my flat mates and go to bed early except when I have exams!

*Monday May 28

Next week, there will be a culture day and I'll represent Bahrain. At the moment I'm preparing for this day to win the competition. I'm happy here and learn new things every day. I've also learnt to save money so that my pocket money will last till the end of the month.

3- A story about determination

* Chimokel Chillapong is a Kenyan farmer with a small family she is an example of determination.

** She was married when she was 16. She has two children and lives in a small farm .she wanted to send her children to school ,but they needed a lot of money a neighbour told her about the running races with money prizes ,so she started running .

*** She trained for one year ,early every morning in the hills .Her husband looked after the boys ,and she did extra work on the farm .she was determined to do well .then, amazingly ,she won the Nairobi marathon .it was her first race .she was very happy when her boys went to school after that.

**** We can learn many lessons from this story . a person mustn't give up hope in life and he must struggle to achieve his goals.

4-A film review (Home Alone)

* "Home Alone" is one of the most exciting films I've ever seen. It's a comic film written by John Hughes and directed by Chris Columbus. (Macaulay Culken) acted as Kevin, (Joe Peseias) Harry and (Daniel Stern) as Marv.

* After a fight with his brother in front of the family, his parents send him up to third floor for the night. Kevin wishes his family would disappear! In the morning they travel to France to celebrate Christmas and forget him at home. But two burglars Harry and Marv try to rob his house but Kevin makes a plan to catch them and send them to the prison.

* My favourite character is Kevin because he is a brave and smart boy. I think the plot is very interesting and funny, but I don't like Harry and Marv because they are silly. Also, some scenes are not true.

* I recommend every one to watch this film because it is very funny and exciting. The moral of the film is that the family is important for everyone and nobody can live alone.

5- T.V Programme review

Party animals

Party Animals is a comedy drama about the lives of some young researchers who work for the politicians in the parliament. There are four main characters: three of them work for different political parties and one is a young political journalist. These young graduates spend their working days in the houses of the parliament. They plan, they lie and they learn to use power to get what they want. They spend their free time in restaurants and at parties. At these parties, relationships develop between these ambitious characters. These relationships are difficult because of political differences.

Party Animals is a clever and entertaining comedy drama. The four main actors are all excellent. They are brilliant as ambitious, young and rather selfish people. The writer clearly knows about life behind the scenes of parliament. The script is convincing as well as funny.

Overall, this is a drama series to watch, even if you normally hate Politics

6-Describe the climate in your country

Bahrain is the country where I live. It is located in the Arabian Gulf in the Middle East region.

The climate of Bahrain is generally dry. It is extremely hot and humid in summer and mild in winter. During the summer months, the average temperature is about 40 c and can reach 48 c during June and July. Rainfall in Bahrain is rare and irregular. The rainy season is in winter. The best time to visit Bahrain is during the mild weather of spring or autumn.

Bahrain, like the gulf countries, faces climate change because of the global warming which has serious effects on people. For Example, the number of Bahraini people with asthma is increasing due to hot weather and humidity. In addition, climate change badly affects marine life, fishing activities and farming. Moreover, People's lives are affected by the weather. When it's too hot, they wear light clothes. During the rainy season, they wear heavy clothes.

To sum up, although the weather is very hot in Bahrain most of the year, I like it because I can practise water sports such as diving, swimming, fishing and windsurfing.
