Subject: The local transport situation in SOQ WAGEF.

The aim of this report is to examine the transport situation in "SOQ WAGEF", a big shopping area in Hamad Town.

There are several positive things.

- There are different shops. In some you can find clothes and others sell food.
- There are free car parks plus a bus station. You can go to your house any time you want by taking a bus.
- It's open from 10 am until 11 pm. In celebration and holidays they open earlier and don't close until late hours.

However, there are many things which could be improved.

- The parks are small. In addition there are no zebra crossings. A young man died last week when a car hit him while he was crossing the road.
- There is heavy traffic jam in this area. If you go there to buy your dinner you will spend more than 30 minutes to take a place near the restaurant you want.
- There is no speed limit for cars inside the market. Most of the accidents that occurred in the market because of speed.

To sum up, on the one hand "SOQ WAGEF" is an attractive area with all its interesting shops. On the other hand, the local councils should do something to solve the traffic problem in it by widening the roads and installing traffic lights.
