Bahrain,
I sa town,
P.O. Box123

Dear sir/ madam, OR Dear Mr. / Mrs.

I am writing to protest about Building factories in front of houses which is a problem for many people and makes them suffer. So many people and I against it.

Well, Building factories has a positive side for example it will offer more jobs opportunity for people living there. Also it will increase the economy in our country. Besides that, it will develop the national industry so we got our needs easily without effort or order it from another country.

On the other hand, building factories has a negative side such as it affects people's health. So because of the smoke people will have problems with breathing. Also, they will have problems with hearing because of the machines noise. As well as, it will be danger for the children so they can't play next to their houses. And I think it will destroy nature because of the pollution that factories cause.

Because the negative thing are more than the positive one I think this is a series problem so I suggest they build the factories somewhere far from people houses. Besides that, they make a survey to see how many people agree and how many disagrees.

I look forward to reading more letters about this issue in your newspaper.
