A Letter of Complaint رساله شكوى من منتج

Dear Sir /Madam,

I am writing this letter to complain about the new smart phone which I bought from SHARAF DG in City Center last week for BD250. I enclose copies of the guarantee and receipt.

In your advert you claim that it is of a high quality and has all the merits of other smartphones. Unfortunately, the smartphone has not performed well as expected. I am very disappointed and shocked to discover that it does not have the latest technology of smartphones. The battery runs out quickly. The back camera does not work well. The sound is rather low.

When I took the phone to SHARAF DG, the assistant refused to refund my money. He also said he would not repair it. He treated me in an unfriendly way as if it was my fault to have bought it. I do not need to say that I am a loyal consumer who has purchased many electronic products from your stores before but never faced such a problem.

Therefore, I would like you to refund my money as soon as possible or replace it with another one of a high quality. I will wait until next Monday before seeking help from a consumer protection agency. I look forward to hearing from you soon.

Yours faithfully,

Ahmed Ali

A Letter of Complaint رسالة شكوى من خدمه سيئه

Dear Sir / Madam,

I am writing to you about the bad service that I experienced in your **Yummy Food restaurant** on **21st April 2022** when I was with **my brother**. I enclose copies of your brochure and the receipt.

In your advert, your service is unequalled by any. You said **that it is one of the best restaurants all over Bahrain and that your service is five stars**. However, I witnessed a totally different story that is contrary to what you claim in your advert. First of all, **your employees were very slow and rude with the customers. I asked one of them to check my reservation, but he ignored me, so I waited for more than one hour until I found a place**. Added to that, **I was surprised to see that people were smoking freely there**. I was really shocked when all of this happened despite your claims in your advert and in the shop.

When I called the supervisor and asked him about that, he looked at me angrily saying that it was not a big deal. Even worse than that he was screaming and treating me impolitely saying that I am wasting his time. I told him that we are not going to stay and asked him to return my money, but he refused crudely.

I would like you to refund my money for all of this. I would also like compensation and a written apology for the bad treatment I received from your employees. Unless I receive a satisfactory reply, I will write to the Consumer Association.

I look forward to hearing from you as soon as possible.

Yours **faithfully**,

Noor Ali

(Enquiry letter) رسالة إستفسار عن منهج دراسي

Dear Sir or Madam,

I would like to attend the English course in your academy. I am interested in visiting New York and your academy seems ideal for me. I have seen the advert and found a lot of information, but I still have some questions. I would be very grateful if you could answer them.

First of all, I wonder how long the course is? How many students are there in the class? Are there any exams at the end of the course? Could you tell me if I will get a certificate from the academy when I leave? And how much does the course cost?

Concerning other activities, I am very interested in team sports. Is it available to do sports at the academy? If so, I see that I can do this every afternoon. Also, I enjoy trips. Does the academy organize trips to New York landmarks?'

As I mentioned, I am very interested in coming to New York, and I would like to live with a local family. However, if I am not happy with the family, can I change accommodation?

Thank you in advance for answering my questions. I look forward to hearing from you

Best wishes

Omar Mohamed

The increased use of mobile technology, social networks and gaming is changing the way many people think and behave

الإستخدام الزائد للموبايل وشبكات التواصل الإجتماعى والألعاب

غيروا من الطريقه التى يفكر ويتصرف بها الناس

In the last few years the increased use of mobile technology, social networks and gaming is changing the way many people think and behave. **I think that** they have some negative effects on our life. **In this article I will express my opinion in details.**

Firstly, I believe that mobile technology, social networks or gaming drove people to isolation. **That is to say** they have no face-to-face communication. **For example,** Family members are busy with their own mobile devices; each one is sitting by himself. Families no longer share stories or listen to each other. This has led to loneliness and isolation.

Secondly, in my opinion, bullying and violence are the direct results of online gaming and social media platforms. **That is to say,** there are many shapes of violence that become a trend. **For instance,** young people may follow in the footsteps of these trends, ending up enlarging the circle of violence in society. **Also,** people learn new means of fraud that are popular on media platforms. **In addition,** Movies and serials teach people how to break the law.

Moreover, these media platforms have brought about an unhealthy lifestyle. **For example,** the habit of staying up late browsing social media has become a common practice everywhere. **In addition,** the culture of fast food has spread everywhere and led to the problem of obesity. **Furthermore,** young people prefers to stay at home most of the time without practising any physical exercises.

Overall, I am not very optimistic. I am worried that these practices are increasing. We are moving towards more isolation and violence. **To avoid the side effects of these, we need to** have better control over these gadgets. Moreover, we should choose the proper content that may promote behaviour and thinking.
