Corryvale Farm

Corryvale Farm is in the west of England. Stephen and Jenny Blacker keep cows and chickens and sell milk and eggs. But most of their money comes from Jenny's sheep.

She has 50 sheep and each one has enough wool for six sweaters. Every six months, Stephen cuts this wool off the sheep so they won't get too warm. Five years ago, Jenny made some sweaters with the wool and tried to sell them at country markets.

But it was summer, and the weather was hot so people didn't want to buy sweaters. She then made some socks. Everybody loved them because they were cheap, strong and easy wash.

That's how Jenny's business started. At first, she made the socks at home, but soon she had thousands of customers so she had to send the wool to a factory, where all the sock are now made on machines.

There are six colours, five sizes for all ages, and different socks for walkers, sportsmen and skiers. Jenny is the busiest at Christmas because Corryvale socks are a favourite present.

Listening 2

Q2. Listen and circle the correct answer (A, B, or C) .

Listen to Philip Jamie talking to his friend about a photography course.

Number (0) is done for you.

Before we start, here is an example.

WOMAN: Hello, Philip. Are you doing a photography course? MAN: Yes, there wasn't one at my college, Park College, so I go to City College in South Road.

Philip is doing a photography course. There wasn't one at his college, so he goes to City College in South Road, so there is a circle around (B) in the example.

Now we are ready to start. Listen carefully.

WOMAN: Hello, Philip. Are you doing a photography course? MAN: Yes, there wasn't one at my college, Park College, so I go to City College in South Road. WOMAN: Are your classes in the evening? MAN: Yes. I finish at Park College at five thirty and get home about six o'clock, the lessons start at six forty-five. I have just enough time to eat. WOMAN: How much are they? MAN: My ten-week course is usually ninety-five pounds. But it costs me seventy-five pounds because I'm a student. There's also a five-week course for fifty-pounds. WOMAN: Is it a good course? MAN: Yes, great. The cameras are rather old, but my photos are much better now, so I'm really pleased. I will never be a famous photographer though. WOMAN: I think taking photos is difficult. MAN: Well, we did animals first and they are certainly not easy. But then we took pictures of trees, and that wasn't difficult. We will photograph children next. WOMAN: And after the course? MAN: There aren't many jobs for photographers. It will be my hobby. I can use my father's camera, but I will have to buy a lot of films.
