- *A paragraph about how the uniform was.*
- *A paragraph about how the uniform is today.*
- *A conclusion.*

### Model Answer

Before the 1900s, there were no special basketball uniforms. Basketball players wore any type of athletic clothes, which made it difficult to differentiate teams. The first basketball uniform had knee-length padded pants or shorter pants with long tights. There were two types of T-shirts, one with sleeves, while the other was sleeveless. The entire uniform was made of heavy wool. They wore special basketball shoes with suction cups.

Basketball uniforms have changed through the years. Basketball uniforms are very different. Today they wear long shorts and sleeveless t-shirts. The uniform is made of lighter polyester and nylon. They wear sneakers; this keeps basketball players cool as they run or jump. Each team has its own colours now. For example, San Antonio Spurs players wear black and white t-shirts and shorts. In future, these uniforms will change too. Players need uniforms that are practical and in fashion.

Up cycling is really wonderful. It means the activity of turning old or used things and trash into new items. Combining things to make new useful things is a very popular activity nowadays. People share a lot of amazing ideas about up cycling on the internet. For example, you can use coloured car tires as plant pots or swings. Another example is to use damaged wooden products to make toys for children or even a small coffee table for the reading corner at home. Party dresses can turn into fancy cushions for the living room. Some up cycling ideas are more unusual, such as turning a small frying pan into a bird feeder. You just need to fix it in a cage, and surely, you need some seeds for the birds. There are so many fascinating ideas to do with our old things and junk. It is an opportunity to make use of them, not to dispose of them as waste. Let's keep earth clean.

Do you like camping? Well, if you want to camp, this cool new gadget could help you. It is a smart electronic tent. You just need an app on your smartphone or tablet.

This product is amazing because it lets you camp easily without having to fix a tent yourself. It functions on solar cells. Think about it: You want to camp with your family, and you have just decided to do so. You will put this tent in your car's trunk, and then you will just fix it by using an app on your smartphone. The tent will be fixed in 5 minutes. I love how the product lets you feel comfortable since it has electronic beds with relaxing pillows.

This product is incredible, but there are two things about it that I don't like. First, if it is damaged, it will not be easy to repair it. You would also have to wait for the spare parts. The company is working on this problem. They are thinking of hiring agents in many countries to deal with this problem. Second, it is very expensive and not all people can afford it. All in all, I give this product five out of ten.
