Diego loves his job. He works at the airport, not as a pilot, but as an air traffic controller. His job involves safely guiding hundreds of aeroplanes in and out of the airport. Specifically, he's an 'approach controller' which means he is responsible for telling the pilots when it is safe to land. Other roles involve guiding pilots into the parking stands, or ensuring planes are spaced out correctly in the sky. Occasionally, Diego works during the day but, because he's a night owl, he prefers working the night shift. He finds it easier to concentrate when it's dark outside. He knows he is unusual in this and that most people are more awake and alert during the day. But he sleeps well when he gets home and always feels refreshed before another night's work.

- 1 Diego is a(n) _____ .
a) **air traffic controller** b) pilot
- 2 At work, Diego guides pilots _____ .

- 3 A 'night owl' is someone who _____ .

Model Answer

My father has a great job at one of the best kitchens in a hotel in Bahrain. He is a daytime food tester and he mostly works at night. His job is mostly done in a kitchen, but sometimes he works in other places like wedding halls. He starts his work early in the morning. He tests the food for the breakfast meal and tests different kinds of juice. He also checks the amount of sugar in different drinks. Then, he smells and tastes vegetables and fruit arranged for lunch

He sometimes has to go to markets to buy the good ones himself. He tests boiled, fried, and grilled food, and gives advice to the chef. In the early evening, he starts checking the food for dinner. He tests every thing like salad, bread, soup, and sweets. My father says, 'I love food, and I love my job!'

Or

A Tiring Work Day

My brother has a great job at the Science Centre. He is a daytime underwater photographer and he rarely works at night. He needs to be very careful. In the early morning, he goes to the centre and checks his tools like the camera and underwater breathing device. He wears his diving suit and fins. Then, he speaks to the divers to ask for information. After one hour, he is in water. He takes photos of many things like sand, coral reefs, fissures, ship wrecks and sea creatures. He also videos some scenes and uploads them on the Centre's youtube channel. Mostly, he spends one hour underwater, but sometimes he doesn't have to be in water, he lectures the visitors of the centre and shows them the photos and the videos. My brother says, 'Although I have a tiring job, I still love it!'
