(Bahraini Bulbul) unit 5

Dear Editor,

I am writing to ask you to protect an endangered animal, the Bahraini Bulbul. It lives in Bahrain now, but it could stop living in the wild in five to ten years. However, it isn't as big as other animals, like red pandas. As a result, people don't care about it.

In my opinion the Bahraini Bulbul has got very nice sound . you will love to hear it in the morning. Also , it has got very nice colours. Scientists are studying it because they want to learn a lot about it. Another interesting fact about the Bahraini Bulbul is that it never becomes big .

I think there is also a cultural reason to save the Bahraini Bulbul. This bird was very important in Bahraini stories. For all of the above reasons, we should do everything to save this amazing bird.

Thank you for your attention,
Ali Hasan

(Water waste) unit 6

Dear Sir/Madam,

I am writing this letter to tell you about the problem of wasting water I have recently seen during my stay in the hotel. It is due to the bad use of the taps in the swimming pools, and restaurants, maybe even in the rooms.

It is very bad to see that many families in the hotel leave the taps running .Running taps lead to the lack of water. Also, many of these taps are in need of repair and maintenance. water wasted in this way could very well serve the needs of a large number of people. All of this leads to a large amount of water getting wasted.

For these reasons, I would kindly request you to stop this. I believe we must do everything we can to save this gift.

Thank you for your attention.

Best regards,

Hasan

(Murals) unit 7

Murals are painted on school walls to make the place very exciting. They can also be done on wood or plastic. murals usually have a message behind them or a theme. Here are some simple steps to create a mural in your school.

First, paint a base layer on the wall. After that, use the grid method to scale the design. Second, create an outline of shapes and sketches of the imagery.

Next, add details to it like light and bright colours. After that, to paint a mural outside, you will need harsh paint that can resist the weather. Finally, add a protection seal coat.

In conclusion, painting a mural is quite easy and it helps artist to practice their art and express thoughts and ideas freely. Also, It refers to our great history .

A survival story unit 8

Last year, my friend and I went on a fishing trip on a boat. The weather was beautiful, and the sea was calm. It was a 45-minute sailing to the fishing spot.

We started fishing as soon as we arrived, we used fishing rods, and we caught a lot of fish. Suddenly, the sky turned dark, the clouds started to rain, and the wind started blowing. It was a terrifying storm! And we were caught in the middle of it.

My friend used a flare gun to signal for help and fortunately a big ship was passing by, and they saved us. The moral message of the story is that we can practice our hobbies but at the same time be careful and aware.
