- 20 - Camelsadapted to live under the harsh sun.
a) **have** b) has c) is

Writing

1- Write a persuasive letter about an endangered animal .Why we should protect it . How we can save it from extinction . Reasons why it is endangered . Persuade your readers to protect it .

Answer

The bulbul

Dear Editor,

I am writing to ask for protecting an endangered animal . The bulbul is a Bahraini bird . It feeds on fruits and flies . It is as attractive as other animals, like red pandas or Siberian tiger . In my opinion the bulbul is a beautiful bird that the world may lose in the coming few years . I believe that we should do everything to save this amazing creature.

There are many reasons why bulbuls are endangered . First , hunters hunt baby chicks for trade . Second , the climate is changing and it leads to the decrease in the number of bulbuls . So the government must make fines on hunters . Also they should protect the homes of bulbuls . They can make artificial homes.

For all of the above reasons , people must protect these wonderful birds from extinction . They shouldn't buy it .

Thank you for your attention.

Ali Hussain

2 - Write a letter of complaint to the manager of the hotel where you were staying , about the amount of water wasted Show that water is important . Show how people waste water. Give tips for saving water.

Answer

How to save water

Dear Manager

Water is a gift to the humanity . For us fresh water is the most important thing on the planet . Without water, the life of humans and animals is impossible . After fresh air, water is the second most important thing for the life of any living being . We need water for drinking, cooking and washing .

This is why it's important that we know the amount of water we use and save as much as we can . Here are a few tips for you to manage water in your home .

Make sure you turn the tap on , only to rinse . Use less water for showers . Put a full load into your washing machine and dishwasher before starting a wash cycle.

For these reasons, I believe you will do everything to reduce food waste in your restaurant.

Thank you for your attention.

Best regards,

Hussain

3 - Write a letter of complaint to the manager of the hotel where you were staying , about the amount of food wasted. Show that food is important . Show how people waste food. Give tips for saving food.

Answer

Dear Manager,

I am writing to complain about the food that your restaurant wastes every day because you serve too much . As a result , very few people can finish it , and lots of food goes in the bin. This is worrying when we know that we waste 1.3 billion tons of food every year.

Food waste isn't just bad for humans. It affects our environment because it produces a dangerous gas that keeps heat inside of the atmosphere .

Farmers use a lot of water to grow plants . We use a lot of energy to transport food from the field to restaurants. That's why we waste our planet's natural resources.

For these reasons, I believe you will do everything to reduce food waste in your restaurant.

Thank you for your attention.

Best regards,

Ibrahim Ali

Read the story. Then write TRUE, FALSE, or DOESN'T SAY under each statement

Endangered Giant

How could an animal that weighs 330-440 pounds and is armored with a shell be in danger of becoming extinct ? Once thousands of these huge land-dwelling reptiles lived on a group of islands in Ecuador in South America in the early to middle 1800s . The tortoises not only provided a large amount of meat, but they were also easy to capture. It is estimated that between 1811 and 1844, more than 15,000 tortoises were caught and taken aboard ships as food. This was not the tortoises' only problem. Rats from the ships came ashore and preyed on the eggs . In 1959, the government of Ecuador took steps to protect these gentle creatures from disappearing forever.

1. tortoises are armored with shell .

3. The Islands are in north America .

4. Rats came ashore and preyed on the eggs .

5. The Islands are a part of Ecuador.

6. The tortoise is an endangered animal.
