a

b

c

4- When will the anniversary dinner be?

Wednesday  
the 30<sup>th</sup>

a

Friday  
the 21<sup>st</sup>

b

Saturday  
the 22<sup>nd</sup>

c

5- What is the man having problems with at the moment?

a

b

c

6- Which photo are they talking about?

a

b

c

(6x2.5=15 Marks)

**Listening (2): (15 marks)**

(-----/15)

**You will hear an announcement about an art competition for schools. For each question, fill in the missing information in the numbered space with one word only.**

**Art Competition for Schools**

**DETAILS**

What to draw: (1)-----

Design: hand drawn

**THIS YEAR'S PRIZES**

1st: visit to wildlife centre with your (2) -----

2nd: (3)-----

3rd: cap

**JUDGES**

Toby Shore (4) (-----)

John Misbah (Scientist)

**DATES**

Entries must be in before the: (5)----- of March

For all information about the competition go to: www. (6)----- .org

**(6x2.5=15 Marks)**

**Reading: (34 marks)****(-----/34)****Reading (A): (10 marks)****(-----/10)**

**Read the text below and choose the correct answer for each space. Circle the correct letter a, b, or c. Number (0) is done for you.**

**Nathan Wolfe**

Nathan Wolfe is a (0) scientist and he (1) ... all over the world. He specialises in virus and diseases and he often goes to places (2).... health problems. In particular, he studies viruses and diseases (3).... animals. It's an important job (4).... he wants to know how these viruses move to humans, and how we can stop them in the future. As a result, Nathan spends (5)... of time in regions with wildlife. (6).... the modern world, humans don't stay in one place anymore and so new viruses travel more easily (7).... . When humans visit regions that has wildlife (for example, in Africa), they (8).... . not realise how easy it is to (9).... . a new kind of disease back with them. However, Nathan continues to fight for global health by making use of modern technology and the (10).... . medicines.

Any people who can't swim should leave the water. b. people should go to shallow water to enjoy the waves. c. people shouldn't go into deeper water if they can't swim.
5.	Hi Jon. Your friend Mark came to the house earlier to see if you were in. Can you ring him back before 5.30 tonight? He's going to football practice then. Mum	Mum is texting Jon to a. tell him to contact his friend. b. remind him that it's football practice tonight. c. ask if he'll be home before 5.30.

(5x2=10 Marks)

**Reading (C): (14 marks)****(-----/14)****Read the following text carefully. Answer the question that follow.****The history of photography**

The first tool to capture and fix images was the camera obscura. It was a box with a hole in it. When light passed through the hole, an upside down picture appeared on paper. The first person to write about the camera obscura was the Arab scientist Alhazen in the 10th century.

By the 17th century, European artists were using the camera obscura to paint very realistic pictures. But it was quite complicated. They had to copy the images on paper, and they could not keep the image the camera made.

Then in 1825, a French physicist called Joseph Niepce created the first photo on paper using chemicals. But it took eight hours! Niepce's work was continued by another French man called Louis Daguerre. He created the first practical method of taking photos in 1837. They did not take eight hours to make! At first, photos were very difficult to take and the photographer needed expensive equipment. People had to sit still for minutes or the photos did not work. But in 1888, an American called George Eastman made a simple box camera that ordinary people could buy. He also invented flexible film. With each film, you could take 100 photos. People just took photos and sent their film to a laboratory to be developed.

Colour photos were first created in the early 20th century. The inventors of the cinema, the Lumiere brothers, created the first colour photos. But the first colour films were not sold until 1935 by George Eastman's company.

Today, we use cameras without film. They look like traditional cameras but they are digital. The images are transferred to a computer and people can change the images or send them by e-mail. We also take photos with our mobile phones. Things have come a long way since the camera obscura!

**1. Decide if the sentences are true (T) or false (F). Circle the right answer.**

(-----/6)

1.	The camera obscura took the first photos .	<b>T</b>	<b>F</b>
2.	17th century European artists took photos.	<b>T</b>	<b>F</b>
3.	Chemicals were used to create the first photo on paper.	<b>T</b>	<b>F</b>
4.	Daguere’s method of taking photos was faster than Nipece’s.	<b>T</b>	<b>F</b>
5.	When George Eastman introduced his box camera, ordinary people could take photos for the first time.	<b>T</b>	<b>F</b>
6.	Nowadays, we use cameras with film and transfer them to our computers.	<b>T</b>	<b>F</b>

(6x1 = 6 Marks)

**2. Answer the questions below.**

(-----/8)

1. Who was the first scientist to write about the camera obsura?

.....

2. What was wrong with the camera obsura? Explain.

.....

3. How many photos can ordinary people take with a simple box camera?

.....

4. In which century were the first colour photos created?

.....

(4x2 = 8 Marks)

**Writing (2): (20 Marks)**

**Choose ONE question only.**  
**(Write 110-130 words)**

**A- Write an opinion essay to answer the question: Can we live without smartphones /smart devices?**

**OR**

**B- Every country is unique in its holiday destinations and tourist-attraction sites. Write a blog post about holiday destination in your country. Present your ideas or points of view about the place.**
