Unit 6 Lesson 7 Writing

A letter of complaint : Water Waste

Dear Sir/Madam,

I am writing this letter to complain about the water waste problem. During my stay in the hotel.

I noticed the misuse of the taps in the restrooms, swimming pools, and restaurants. It is very bad to see many families leave the taps running, this leads to a shortage and waste of water.

Newspaper reports state that the amount of this water wasted can serve the needs of a large number of people. Could you kindly take an action to stop this?

People are not aware of the importance of water and how it must be used without wastage. Besides, the hotel management doesn't provide taps with regular maintenance. All of this leads to the waste of a large amount of water.

For these reasons, I believe we must do everything we can to save this precious natural resource.

Thank you for your attention.

Best regards,

Donna

Unit 6 Lesson 7 Writing

A letter of complaint : Food Waste

Dear Sir

I am writing to complain about amount of food wasted in your restaurant as you serve big amounts of food, very few people can finish them, and lots of food goes in the bin. This is very worrying

Newspaper reports state that we waste 1.3 billion tons of food every year . You must consider that food waste is bad for humans and the environment .When food goes to landfill, it produces a dangerous gas . Also, the chemicals that come out of the food harm soil and water.

Besides , Farmers use a lot of water to grow plants that make food. A lot of energy is used to transport food from the field to restaurants. That's why when we waste this food, we waste our planet's natural resources.

For these reasons, I believe you will do everything possible to reduce food waste in your restaurant..

Thank you for your attention..

Best regards,

Mohammed
