PRESCRIPTION**

- a. Take the tablets regularly until the bottle is empty.
- b. Take three tablets after you finish each meal.
- c. Take one tablet every day until they are finished.

(5x2=10 marks)

C- Read the following text.

HEALTH ADVICE FOR TRAVELLERS TO TROPICAL COUNTRIES

Be well prepared so you can enjoy your stay!

You can get information about the country you are visiting from your travel agent or each country's Embassy. If you think you will need special medical advice then you should see your doctor at least two months before your departure. If you want to take any medicines abroad with you, then find out from your local chemist if you are allowed to take them into the country you're visiting. If you've got any doubts about your teeth, see your dentist as it may be difficult or expensive to get help abroad.

Take a small first aid kit with you; it will not take up much space and could be very useful. Also check the water you use for cleaning your teeth and washing your mouth. Unless you know it is safe always try and use bottled water.

Be careful with the following foods: raw vegetables, salads, unpeeled fruit, raw shellfish, cream, ice-cream, undercooked meat or fish. It is also not a good idea to eat food which has been cooked, left to go cold and then heated up again. Freshly cooked foods are safer.

More than anything, some holiday makers go abroad to find the sun. However, the sun may be much more powerful abroad than what you are used to in your own country. Take care not to lie in the sun for too long, especially in the early days.

If you are walking in wooded areas and you get bitten or scratched then go to the nearest hospital immediately. A bite from an animal or an insect can lead to illness even if it does not seem dangerous at the time. Even if you receive medical help and you are feeling fit, you should visit your own doctor as soon as you get back to your country.

If you become ill when you come back, tell your doctor which countries you have stayed in or travelled through. He or she will then quickly be able to check whether you will need specialist medical help.

I. Now choose the best answers.

- 1. The best time to get medical help is before your departure.**
 - a. two weeks
 - b. a month
 - c. two months

- 2. You should go to your dentist before travelling if necessary because abroad.**
 - a. it may be expensive
 - b. you can not get help
 - c. it might hurt you

- 3. It is better to take with you when you travel abroad.**
 - a. a first aid kit
 - b. bottled water
 - c. food

- 4. An insect bite is**
 - a. not as serious as an animal bite
 - b. almost like an animal bite
 - c. more dangerous than an animal bite.

(4x2=8 marks)

II. Now answer the questions below.

- 1. How can you know about the lifestyle in the country that you want to visit?**

.....

- 2. How can we protect ourselves from the sun?**

.....

- 3. What should you do when you return home if you see a doctor abroad?**

.....

(3x2=6 marks)
