2- situation inside the plane.

3- pilot reaction

4- movement of the plane

5- what was happening to the plane

I'll always remember the time when we **were struck** by lightning when we **were flying** back from Spain. We **had been** in the air for about an hour without moving. The only things you **could** see outside **were** flashes of lightning across the sky and dark clouds. We all **were screaming** and crying inside the plane while the pilot **was trying** his best to calm us down. Suddenly, we **heard** a loud bang and the plane **started** to move up and down.

After a long struggle, the pilot **was** able to land the plane safely. When we **got off** the plane, we **saw** that there **was** an enormous hole in the tail fin.
