Walt Disney (1901 – 1966)

Walt Disney was a well-known film producer and an innovator in animation design. He created a number of the world's most famous animation heroes, like Mickey Mouse, Donald Duck, Felix the Cat and many others.

In his childhood, Walt moved with his family all around the United States. When young Walt arrived in Los Angeles, he had only \$40 and an unfinished cartoon in his suitcase.

Disney's first wish was to become a film director. Since he didn't succeed in live-action films, Disney turned back to animation. His first Hollywood cartoon "studio" was a garage in his uncle's house. Walt went to his brother Roy and asked for his help with opening the studio. Roy agreed and this was the beginning of the Disney Brothers' Studio.

Walt Disney died on December 15, 1966, several years before the opening of his "Walt Disney World" dream project in Orlando, Florida. The famous Disneyland and Walt Disney World resort parks in the United States, France, Japan and China were named in his memory.
