# BACK TO EARTH WITH A BUMP!

---

Reported by Amanda Kelper, Media Correspondent, London

Last week, British astronaut Tim Peake returned home from an incredible six month stay aboard the International Space Station (ISS), alongside his crewmates Yuri Malenchenko and Timothy Kopra. He is the first British astronaut to have lived on the ISS.

The men were launched into space on 15th December 2015. The mission involved conducting experiments, testing out new technology and inspiring the next generation of space travellers. Peake told reporters that the best part of his mission was a spacewalk where he had to make a repair on the space station.

Having circled the planet nearly 3,000

*Landing with a bump! Tim Peake lands safely in Kazakhstan.*

Tim later flew from Kazakhstan to the headquarters of the European Space Agency in Germany where he is getting used to life back on Earth. Scientists are carrying out tests to see how his body has been affected by his time in space.

Shaikh Mohammed Bin Hamad Al Khalifa successfully climbed Mount Everest in May 2021. His team included members of the Bahrain Royal Guard, and they are the first Bahraini nationals to climb Mount Everest.

Climbing Everest is an ambition for many experienced climbers because it's the highest peak in the world. The climate of Everest is one of the most difficult things for climbers to manage. The weather on Everest can also change very suddenly, which makes it dangerous for climbers.

The Bahraini team trained in the Himalayas in Nepal for a couple of months before embarking on their expedition to Everest. They climbed several smaller mountains as part of their preparation.

On the day they reached the summit of Everest, the team held the Bahraini flag at the top to mark their achievement.
