Writing Topics for Final Exam

1st Semester – 2024-2025

موضوعات الكتابة - الفصل الدراسي الأول

Unit 1 Compare and contrast essay

Write an essay of 110 – 130 words to compare and contrast your personality with that of a family member or friend.

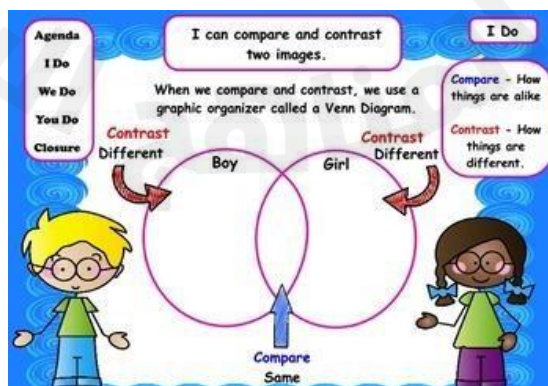

I come from a large family with many aunts and uncles, but not **as similar as** each other.

My sister and I are very **similar**, we like **outdoor activities**. We usually go **fishing and camping together**. We are also **alike** in **our free-time activities like going for walks**.

On the other hand, we don't have **the same** taste in **food**. I like to **have my dinner at home**, while **my sister loves to eat out**. **Although** we are close in age, but we **think in a different way**.

No matter how different or similar we are, as long as we do things together, we feel very happy.

Unit 2 Process Description essay

Many people are scared of birds. Imagine you are always around birds. You don't want to fear them. How could you help people understand birds? Write an essay of 110–130 words to your English friend describing the process.

Like many people, I used to be scared of birds because I was attacked by a bird when I was young. So, I decided to face my fear directly.

To do this, first, I started reading about different birds and learned about their importance in for the environment. Then, I began watching birds in their natural homes. Later, I became more comfortable around them.

Finally, I visited a bird zoo, where I had a parrot stand on my hand; it was a strange but amazing experience at the same time!

Managing your fears can be difficult, but it's important to try. You can start by reading and learning more about what you're afraid of. Take your time and try to feel more comfortable step by step. The end result is worth it!

Unit 3 Personal email

Every winter, tens of thousands of Bahrainis go camping in Sakhair. Write an email of 100–120 words describing this group's behaviour in Bahrain. Make sure you include several examples.

To: Ahmed

From: Mohammed

Subject: Camping in Sakhair (Group Behaviour) Hi Ahmed,

Dear Ahmed,

Thank you for your email. It's been a while since we last met. I find your project on group behavior quite interesting!

Winter has come, usually we go camping with our family, in Sakhair, and we spend the whole day together, doing fun activities.

There are a lot of activities to do there **such as** buggy riding, which I love doing with my older brother. Also, barbeque time is always fun. At night, we love gathering around the fire and telling scary stories.

For example, if one of us **starts telling a scary story** another one tells a **scarier one**, and the rest of us will join in, we can't help it!

What about you? What do you enjoy doing with your family? I'd love to know if your behaviour changes when you're with them.

Write soon!

Mohammed

Unit 5 Classification essay

Write a classification essay of 110–130 words to describe two types of flying machines:

You may use this plan:

Paragraph 1: Introduction, state which two machines you are going to describe

Paragraph 2: describing the flight of one machine (Support **with fact**)

Paragraph 3: describing the flight of the second machine (Support **with fact**)

Paragraph 4: conclusion, a statement about the two machines

Flying Machines

Before aeroplanes, people invented many flying machines, some of which we still use today. These include **hot-air balloons**, **gliders**, and **helicopters**.

Hot-air balloons and gliders use air currents to move.

Pilots steer hot-air balloons by heating or cooling the air inside, while gliders use their long wings to soar. Gliders are pulled into the air by small planes but glide without engines. **Both are popular for fun and adventure.**

Helicopters, first used in World War II, have engines and spinning blades instead of wings. They can hover in place, unlike aeroplanes, and are **used for medical, military, and sightseeing purposes.**

Which type of flying machine would you most like to travel in?
