Writing evaluative essay, an opinion essay or "agree or disagree"**Example:**

Using smart phones for children is harmful for their intelligence and creativity of children . Do you agree or not? Give your reasons.

Agree:

Many people believe that using smart phones for children can affect negatively on their intelligence and creativity. I totally agree with that opinion for many reasons and factors.

First of all, it makes children lazy and attract them for more using for them. One disadvantage of using smart phones for on children, it prevents them from playing because it is very attractive for them.

Secondly, children ca not practice their activities, therefore, they become unhealthy and gain weight. Another disadvantage, it decreases(reduces) their communication skills.

To summarise, using smart phones is very harmful for children for many reasons. That is why I agreed.

Disagree:

In my opinion, I disagree that, using smart phones is very harmful for children for many reasons.

One reason why I disagree is they develop children' computer and linguistic skills. One advantage of using smart phones for children is they can learn new languages. Therefore, they can be very useful for children.

Secondly, using smart phones can enrich their knowledge about the world as there are thousands of educational websites for children. Another advantage for using smartphones is that they can learn at home as well as at school.

In conclusion, I disagree with the opinion that smart phone_s are harmful for children, I have explained my reasons and a_spects.

Agree:

*There are many debates as well as discussion about the term, ******

****** Many people believe that *****. They have their own reasons for their opinion. On the other hand there are many other people disagree that *****. Also, they have their aspects too to disagree. For me, I totally agree that ***** for many reasons and factors. I am going to elicit my reasons for my opinion.*

First of all, it is very useful for both individuals as well as for the whole society in many sides of their daily life. Moreover, it increases and sustains the mental and the physical abilities for people.

Secondly, there are many advantages for all the people in many other sides. For example, the daily life and the happiness would be better.

Thirdly, we all need to apply this idea in our daily routine. Life would be great and much better in case we apply this idea.

*To summarise, I have expressed my agreement for *****. Moreover, I have explained some of the reasons for my opinion. I hope my reasons would be clear and useful for all. In addition, I hope my writing would be clear, convincing and well organised.*

Example:

WRITING 2 (10 marks) Complete the following task. Write at least 100 words.

Your teacher has asked you to write a story entitled 'A memorable journey'.

Write a narrative story about a journey that ends in disaster. Explain:

What happened

Why it happened

How you felt

Your writing should be lively and interesting.

The answer

Most of us enjoy trips. My best memorable period I can never forget, and I would like to repeat is my last trip to Salalah. It was last August. I went with my family. We went by car. The trip took ten hours. It was long and tiring journey, although it was interesting to watch the environment. We stayed in a hotel.

I have spent a great week there. First, we have visited Jebal Aten. It is covered with green colour and fog. The scene is marvellous. The second day, we enjoyed watching the Hot Balloons Carnival. Hot balloons were fabulous and colourful. The third day was the greatest. We enjoyed the hot geysers and had showers. We visited Razzat Spring in the fourth day. We spent the fifth day in Salalah Festival. Finally, we camped for two days. We enjoyed each minute in our trip.

To conclude, we have enjoyed our time in Salalah. I would never forget the amusement we had there.
