Dear Salmeen,

How are you? I hope you are fine. I would love to help you in your project about famous people. I collected some information about Taha Hussein.

Taha Hussein was born in Egypt, on October 28<sup>th</sup>, 1898. When he was three years old, he had an eye disease. He became blind. Although he was not able to see, he went to school and studied hard.

Taha Hussein wrote more than fifty books which were translated into many languages. The title of his famous book was called "An Egyptian Childhood" which was his autobiography.

Taha Hussein read books about different topics like history, literature and Islam. He read books using braille system and his wife also read and wrote for him. In 1973, he was awarded the United Nations Human Rights Award. Taha Hussein was 83 years old when he died.

I am so glad to read about Taha's biography. I hope you find it useful too.

Best wishes,

Mohammed

Dear Mohammed,

How are you? Thank you for your last email. I hope this information will help you with your project about famous people.

I've just finished learning about a famous person called Jane Goodall. She was born in London in 1934. She is an expert on chimpanzees. Her father was a businessman and her mother was a writer.

Growing up, Jane loved animals. She dreamt of going to Africa someday in order to see some of her favourite animals in the wild. She liked chimpanzees than any other animals. In England, she got her first toy during her childhood. It was a toy of chimpanzee which she loved to play with.

Jane spent her late teens and early twenties saving money to go to Africa. When she was twenty-three, Jane finally had enough money to visit a friend who lived on a farm in Kenya. She went there in 1957. There she started to observe the life of chimpanzees very closely.

Jane Goodall has studied the way chimpanzees live for the past 25 years. She has received many awards for her work to help people understand the importance of wildlife conservation.

Best wishes,

Khalid
