5. Nowadays, many people can do online shopping at home using the internet by their mobile phones, computers, or iPads. They do not need to go to shops by cars or any other transports. I think online shopping is better than traditional shopping for the reasons.

6. First, online shopping saves your time if you are busy with work or study. Last week my sister decided to buy a gift for my birthday, but she didn't have time to go shopping because she was having tests. So, she bought me an iPad from SOUQ shopping website.

7. Also, online shopping is not tiring like traditional shops. You can sit in front of your device at home and search for a product with a good price. Last month I bought a nice jacket with only 2 Omani rials. Then, I saw the same jacket with my friend. She had bought it from a traditional shop with 8 Rials.

8. Buying things online is helpful but not always safe. You should not buy everything like jewellery or perfumes online or from strange sellers because you need to check the jewellery and smell the perfumes. Sometimes, I enjoy shopping with my friends in malls and spend interesting time with them.
