### Reading

#### Directions:

In this section, you will read a passage and answer (2) selected response questions and (3) constructed response ones. Be sure to put your answer in the space provided.

1. Online education is very popular among students with jobs and families. While some online courses use Skype conferences with **instructors**, most allow students to complete coursework on their own schedules. Supporters of online education claim that it has many advantages.
2. Firstly, one can take an online course anywhere if only he has a computer and an internet connection. This is very important for individuals living in remote or rural areas who can't relocate and don't want to commute for hours to school. But it's also useful for parents who need to be able to study at home with young children. Secondly, if one finds himself struggling to keep up with difficult or fast-paced courses, he can take online programs as they allow him to either finish his coursework entirely at his own pace or give him additional time above and beyond the average school term. Thirdly, tuition for online courses is often a little bit lower than traditional classroom courses because the overhead cost is lower for the teaching institution. Online students may also save money on activity fees and similar costs paid by on-campus students.
3. However, there are some disadvantages of online education. To start with, students aren't only missing instructor interaction but also colleague interaction. Research and studies showed that Online courses deprive 90% of learners of basic social interaction and limit opportunities to make new friends - or find future business partners! Another major drawback is the technology used in these courses. While some online programs keep their technology specifications simple such as a word processing program or a PDF reader, others require students to navigate complex virtual learning environments such as Blackboard or Moodle.
4. In conclusion, since online learning is still controversial, one should weigh both sides carefully, in order to decide his own preference which suits his own skills.

1. What is the text **MAINLY** about?

- A. the pros of online education
- B. the cons of online education
- C. discussing the costs of online education
- D. the pros and cons of online education

2. Read the following sentence from paragraph 1.

While some online courses use Skype conferences with **instructors**, most allow students to complete coursework on their own schedules.

What does the underlined word “instructors” mean?

- A. hosts
- B. nurses
- C. doctors
- D. teachers

3. According to paragraph 2, what are the advantages of online education?  
Mention two.

<b>Advantage 1</b>	one can take an online course anywhere if only he has a computer and an internet connection
<b>Advantage 2</b>	tuition for online courses is often a little bit lower than traditional classroom courses because the overhead cost is lower for the teaching institution. (ANY TWO)

4. According to paragraph 3, what are the types of interaction that students miss?  
Mention two.

<b>type 1</b>	instructor interaction
<b>type 2</b>	colleague interaction

5. Based on paragraph 4, what is the writer’s opinion towards online education? What does one do toward online education?

<b>The writer’s opinion</b>	since online learning is still controversial
<b>action</b>	one should weigh both sides carefully, in order to decide his own preference which suits his own skills

## Reading

### Directions:

In this section, you will read a passage and answer (2) selected response questions and (3) constructed response ones. Be sure to put your answer in the space provided.

### Should students do more group work in class?

- 1) Many students enjoy working with their friends in class, but teachers often tell students to work quietly and alone. Is this the best way to learn, or should students do more group work in class?
- 2) On the one hand, there are many advantages to group work. Some people argue that it creates a more comfortable classroom environment because students can ask each other questions that they may be too embarrassed to ask a teacher. In addition, some teachers said, "Group work encourages students to listen to the opinions of others." This improves teamwork, which is an important skill in the workplace.
- 3) However, there are also arguments against group work in classrooms. Firstly, students may become **distracted** and chat about subjects that are not related to school. As a result, no work is achieved. Another disadvantage is that during group work, only certain opinions are heard. For example, one student may try to control the group, or another could be too shy to speak, making group work quite unfair.
- 4) All in all, more group work in class is a controversial issue. It has many advantages but there are many disadvantages, too. In my opinion, some tasks are performed better when people work together as a team. However, others, like writing, are probably best tackled individually.

### 1. What is the main purpose of the text?

- A. to tell a story of the group work.
- B. to persuade the readers of group work.
- C. to discuss the pros and cons of group work.
- D. to inform the reader of the dangers of group work.

2. In paragraph (3), what does the underlined word “distracted” ?

- A. tired
- B. bored
- C. embarrassed
- D. absent-minded.**

3. According to paragraph 2, why does groupwork create a more comfortable classroom environment? Mention two reasons.

Reason 1	Students can ask each other questions that they may be too embarrassed to ask a teacher.
Reason 2	In addition, some teachers said, "Group work encourages students to listen to the opinions of others."

4. According to paragraph 3, what are the disadvantages of groupwork? Mention two.

type 1	students may become <b>distracted</b> and chat about subjects that are not related to school
type 2	only certain opinions are heard

6. Based on paragraph 4, what is the writer’s opinion towards online education? What is the proof the writer gave to defend his point of view?

The writer’s opinion	<b>controversial issue</b>
Proof	some tasks are performed better when people work together as a team. However, others, like writing, are probably best tackled individually.

In this section, you will read a passage and answer (3) selected response questions and (3) constructed response ones. Be sure to put your answer in the space provided.

### Making the best of Exercising

1. Most people know that a balanced diet and regular exercise are very important. However, most people do not know how to exercise properly. Instead of concentrating on how to get the best results efficiently and effectively, people usually rush through their exercising, or they make the same common exercising mistakes. Exercising the right way is important for people who are worried about their health and their appearance. However, if someone is not exercising properly, it is rare that he or she will see the results he or she wants. If you want to achieve the best exercising results, here are a few helpful tips to bear in mind.
2. One of the most common exercise mistakes is doing the same routine over and over again. Instead of always sticking to the same old exercises, it is important to change your routine every six to eight weeks to challenge your muscles. It is also important to add a variety of exercise to your routine, such as swimming or biking, to make sure your whole body stays fit. Another mistake people tend to make is to exercise too hard, too often. Your body needs to rest between exercise sessions.
3. If you want your body to achieve real **progress**, it is best to keep the number of hard exercising routines to no more than two per week. Then, for those who do not want to get off schedule by skipping a day, shorter exercising of about twenty minutes can be used on other days. For more variety in exercising, you could also plan an easier routine for forty to sixty minutes between days of shorter, more intense exercising. Experts recommend, however, taking at least one day off completely each week, especially after several hard-exercising days in a row.
4. In reality, no one is perfect. However, if you want to make a difference in your overall health, there are some things you can do. Stretch before and after every exercising, do not rush your routine, and do not work out too little or too much. Remember not to make these common exercising mistakes, and always have fun while exercising!

**1. What is the passage MAINLY about?**

- A. Exercising can often be bad for your health.
- B. Most people know how to exercise effectively.
- C. Adding different exercises to your routine is not useful.
- D. Exercising well is the best way to gain good health results.**

**2. Why should you change your exercising routine every six to eight weeks?**

- A. to become faster
- B. to exercise your brain
- C. to challenge your muscles**
- D. to avoid bone-related problems

**3. Which of the following means the same as the underlined word (progress) in paragraph 3?**

- A. advancement**
- B. amusement
- C. decrease
- D. release

6. According to paragraph 2, what are the mistakes people make when exercising?

Mention TWO mistakes.

1 <sup>st</sup> mistake:	One of the most common exercise mistakes is doing the same routine over and over again.
2 <sup>nd</sup> mistake:	to exercise too hard, too often

7. According to paragraph 3, what is the writer's advice to achieve real progress?

Mention two pieces of advice.

1 <sup>st</sup> advice:	keep the number of hard exercising routines to no more than two per week
2 <sup>nd</sup> advice:	you could also plan an easier routine for forty to sixty minutes between days of shorter, more intense exercising

8. According to paragraph 4, what can you do if you want to make a difference in your overall health? Mention two actions you can do.

1 <sup>st</sup> action:	Stretch before and after every exercising
	do not rush your routine, and do not work out too little or too much
2 <sup>nd</sup> action:	Remember not to make these common exercising mistakes, and always have fun while exercising
	Any two
