2024

True, False or Not Mentioned

Passage 1:

Emma loves cooking and experimenting with new recipes. She often watches cooking shows on TV and tries to recreate the dishes at home. Last weekend, she made a homemade pizza for her family, and they loved it.

Read the text again and decide if the statements below are True, False or Not Mentioned. Write (T), (F) or (NM).

A. Emma's family didn't like the pizza she made last weekend.	
B. Emma frequently watches cooking shows.	
C. Emma plans to open a restaurant in the future.	

Passage 2:

James is a photographer who specializes in nature photography. He enjoys capturing landscapes and wildlife. Last month, he traveled to the Amazon rainforest for a photography project, where he took hundreds of photos of rare animals.

Read the text again and decide if the statements below are True, False or Not Mentioned. Write (T), (F) or (NM).

A. James has published a photography book.	
B. James visited the Amazon rainforest last year.	
C. James mainly photographs nature scenes.	

Passage 3:

Olivia takes her dog, Max, for a walk every morning. They usually go to the park near her house, where Max loves to play with other dogs. Sometimes, they stop by a café for a quick breakfast.

Read the text again and decide if the statements below are True, False or Not Mentioned. Write (T), (F) or (NM).

A. Olivia walks her dog every morning.	
B. Olivia always eats breakfast at the café.	
C. Max doesn't enjoy playing with other dogs.	

Passage 4:

Kevin is a university student studying engineering. He enjoys working on projects that involve building and designing new things. Last semester, he built a robot for a class project, which received a lot of praise from his professor.

Read the text again and decide if the statements below are True, False or Not Mentioned. Write (T), (F) or (NM).

A. Kevin plans to work as an engineer after graduation.	
B. Kevin's robot project received a low grade.	
C. Kevin studies engineering at university.	

Read the following text. Then answer the questions that follow.

‘Being a chef on a submarine is a very important and demanding job. The quality of the food I serve affects the mood of everyone on board, especially when we are away at sea for months at a time. I always have to be very imaginative with my recipes because the fresh food runs out after a few weeks and then I have to use tinned or frozen ingredients. I’ve got used to it now, though, and I can make tasty meals out of almost anything. The kitchen space is very limited and it gets really hot in there when I am cooking, so occasionally I wish that I had a ‘normal’ job, but most of the time I enjoy it. The hardest part is being away from my family for such a long time. I think that’s something you never get used to. Anyway, at least my salary is good and I get long breaks in between jobs.’

1. According to the text, what are the advantages and disadvantages of being a chef? Mention ONE advantage and ONE disadvantage.

Advantage	
Disadvantage	

2. What did the submarine chef get used to while he was at work?

- (a) being away from his family
- (b) the bad moods of some people on board
- (c) making good food with limited ingredients
- (d) using fresh food in more imaginative ways

In this section, you will read a passage and answer (2) selected response questions and (3) constructed response ones. Be sure to put your answer in the space provided.

The history of transportation is very long and full of changes and inventions. Transportation started with walking, which is not exactly an invention since it only needs energy. People used to walk to get to places . If you wanted to get somewhere quickly, the only way to do that was to run.

2- Then people invented ways to transport themselves and objects from one place to another. The most popular invention was the wheel, and that was the beginning of many discoveries and **innovations** in transportation. It started in the 4th century BC , and once people had wheels , they could invent other ways to travel. They could attach wheels to the sides of a board and make it a wagon. Then they could tie that wagon to a horse to carry heavy materials to a destination.

3- Wheels led to what we have today: trucks , cars, and even boats and planes. They were also part of the oldest steamboat, which was invented in 1807. The steamboat was used to travel along the wide rivers of the United States. It had giant wheels to push the water away and push the boat forward. In 1811, a ship designed by John Stevens used steam power to carry passengers between New Jersey and New York. It was the first ship to successfully navigate the river, which was considered a noticeable move.

4- Moreover, wheels are essential parts of the airplane. Wheels of airplanes help control speed for taking off and landing. They also help airplanes to take off and land safely.in addition to that, they are designed to support the full weight of the aircraft while on the ground. The example of wheels on an airplane can be seen in pictures from 1903 of the Wright brothers and their successful powered aircraft. Even space shuttles and spaceships need wheels to land safely. People predict that someday everyone will have a self-driving car. Self-driving cars are cars that travel without a driver and are controlled by robots and computer programs.

5- Thanks to wheels, transportation has made it easier for people to travel and explore the world. It is incredible that we can now travel and see new things around the world so easily and comfortably. Besides , businessmen can now buy goods that would have been impossible to get from faraway countries in the past. Finally, transportation is something we cannot live without.

1. What is the text **Mainly** about ?

- A. How self-driving cars save our lives.
- B. The importance of wheels in transportation
- C. The history of steamboats in the United States
- D. The invention of spaceships and space shuttles

2. What is the **CLOSEST** meaning to the underlined word “innovations” in paragraph (2) ?

- A. directions
- B. motivations
- C. improvements
- D. celebrations

3. According to paragraph (3), how did the old steamboats in the United States move through the rivers ?
Mention **TWO** things.

Thing 1:	
Thing 2:	

4. According to paragraph (4), what are the benefits of wheels to the airplanes ?

Mention **TWO** benefits.

Benefit 1:	
Benefit 2:	

5. Read the text again and decide if the statements below are True, False or Not Mentioned. Write (T), (F) or (NM).

A. The first ship to successfully navigate the river was invented in 1807.
B. Wheels help airplanes to take off and land safely.
