General Notes

- Refer back to the **literacy plan** meant to improve reading and writing skills, so that you plan your lessons based on the procedures as warm up or closure activities.
- Make sure to avoid including any **vocabulary** words linked to enrichment lessons in the final exams.
- It is essential to exploit the "**Grammar Reference** " to focus on what students need to acquire.
- Make use of the **round-up** activities in **SB** and **WB** for various purposes such as differentiation, formative assessment, and in revision lessons.
- Focus on the **competencies** that are tackled in the introduction of the Teacher's Book and that are represented in symbols next to each activity in SB and WB.
- Focus on the **values** that are tackled in the Teacher's Book and the matrix of values.
- Dedicate 15 minutes of each phonics lesson to conduct a **module test** based on the content taught in each module.
