Subject : Sports in Qatar

Hi Fahad,

How are you? I hope you are fine. I'm writing this email to tell you about sports in Qatar. **Traditional** sports in Qatar include Arabian horse racing, camel racing, and falconry, which were all rooted in the country's nomadic past. Modern western sports such as basketball, golf, swimming, football, table tennis, and volleyball are widely played. However, football has become the most popular sport.

The 15th Asian Games, Asia's Olympic-style sporting event, was held in Doha, Qatar in the Khalifa International Stadium in December 2006. It was the first time that 45 member nations of the Olympic Council of Asia took part in the 15th Asian Games. Football is clearly the most popular sport in Qatar, and has been given a greater encouragement with the country because Qatar has been awarded the 2022 FIFA World Cup.

That's all for now.

Yours,

Omar

Directions: Read the passage and answer the questions.

Dolphins are marine mammals that are related to whales. Dolphins live in seas and oceans. Dolphins are carnivores, they eat fish and other marine life. They often swim together in groups called “pods.” They are thought to have powerful eyesight and hearing, but do not have a sense of smell.

Dolphins come in different sizes. Some are smaller than the average person, but others, such as the orca, can be 30 feet long, or more than five times as long as the average person. Dolphins are thought to be very intelligent and communicate with each other using clicks and whistles. All dolphins are powerful swimmers. Have you ever seen a dolphin? Groups of dolphins can often be seen easily because they bob in and out of waves close to the shoreline. Dolphins can live up to 25 or 45 years.

Reading**Reading Comprehension:**

Directions: Read the passage and answer the questions.

Once upon a time, there was a princess who lived in a big palace. She was very beautiful and always wore very valuable clothes and wonderful rings. But the most expensive thing of all was the crystal ring. A big red stone was inside that ring.

One day, while the princess was walking in her garden, she saw a tiny bird digging in the sand. She asked herself 'Why is that little bird digging?' She wanted to know, so she walked very slowly towards the bird. When she was near, the bird didn't fly away. She was surprised. The bird couldn't fly because its leg got into a hole, and it couldn't escape. The princess decided to help it. Soon the bird could fly again.

The next day, while the princess was sleeping, she heard a very nice sound near her window. She woke up and looked. It was the little bird which the princess helped before. She was very happy because the bird sang beautifully for her.
