1. Where did you go last night?

2. How do I get to the museum?

3. Could I make a poster about the event?

4. Will you please help me carry the box?

B

a. Of course, I will.

b. I went to the mall.

c. Go straight on

d. Of course you can

Worksheet (2)

Read the passage and answer the questions.

Bees are insects. Bees are special insects because they can fly! They can move through the air like an airplane! Bees

can fly because they have wings. They use their wings to fly. Bees can fly fast. Bees can also fly slow. They can fly up and they can fly down. They need to fly to get to the flowers!

Bees can have three colors. They can be yellow, red, and orange. All bees are black in some places.

Bees have three main parts. They have a head. They have a body. And, they have a stinger. The stinger is used to defend against enemies. They also have six legs. They use their legs to stand and climb. They also use their legs to eat and collect pollen.

Bees live in many places. They live in Africa, Australia, Asia, Europe, North America, South America. The only continent that bees do not live on is Antarctica! I understand why they don't live in Antarctica. It's too cold! Most of the time, bees are nice to humans. If you do not bother them, they will not bother you. Have fun watching the bees this summer!

1. What is the text mainly about?

- A. Birds
- B. Insects
- C. Mammals
- D. Reptiles

2. How many legs do bees have?

- A. two
- B. four
- C. six
- D. eight

3. How do bees fly?

Worksheet (3)

Read the passage and answer the questions.

Spiders are very strange creatures. They have got eight legs and 48 knees! There are two main kinds of spiders. They are running spiders and jumping spiders. Most spiders can't see very well, but all running and good eyesight. In fact, scientists think that jumping spiders can see better than we can! Running spiders never stay still for very long. There are lots of different types of running spiders, and they are all very fast. Like all spiders, running spiders make silk. However, they don't use it to create webs or catch prey. Running spiders don't need webs. They are very good hunters. They run after their prey and catch it easily, and most of the time, their prey doesn't even see them. Jumping spiders are very good at jumping. Like running spiders, jumping spiders sleep in little 'tents' which they also make from silk. They like sunny weather, so they hunt during the day. Jumping spiders don't create webs because they jump on their prey to catch it. They plan their jumps very carefully; during the jump, the spider spins a piece of silk starting from the place it jumps from. This is like a 'rope', and it keeps the spider safe from falling and helps it climb back up to its home again.

1. What is the text MAINLY about?

- A. the result of forming webs
- B. new inventions by scientists
- C. some information about spiders
- D. the importance of sleeping in tents

2. What does the underlined word ' create ' mean?

- A. make
- B. buy
- C. eat
- D. send

3. How many knees does a spider have?

4. Where do jumping spiders sleep?
