### Writing: A blog post

*suggested answer:*

#### Reema's blog!

Hi, I'm Reema. I'm fourteen years old and I have lots of interests! Read my blog and find out what I like to do when I have free time.

#### Hobbies

I'm crazy about astronomy. I love learning about the stars and planets. My parents bought me a book about astronomy when I was seven. I used to look at the beautiful pictures in it every night. Now I like to use the Internet to get more information. There's a lot to learn!

#### Other interests

Baking didn't use to be my thing, but now I'm really into it! At the weekends, I always bake biscuits and cakes with my mother because it's a lot of fun. I also enjoy making jewellery and giving it to my friends. You can see some pictures of my jewellery here.

### Writing: A description of a place

*suggested answer:*

The city of Lausanne in Switzerland is on a hill across from the Swiss Alps and beside Lake Geneva. It's the fifth largest city in the country and people there speak French.

There are many interesting places to go and see there. Lausanne is famous for being the world's Olympic capital because it's where the organisers of the Olympic Games work. The Olympic Museum is also there and visitors can find the biggest collection of important items related to the Olympic Games.

Lausanne is anything but boring. You can take a boat ride on Lake Geneva, walk through its attractive old town or even take a day-trip to the nearby Alps to hike or ski. Don't leave without exploring the pretty waterfront area of Ouchy. There are amazing walkways where locals and visitors can enjoy the outdoors.

Lausanne is definitely a place worth visiting. It's a travel destination where culture and nature come together, giving its visitors an experience they won't forget.

## Writing: An email giving news

*suggested answer:*

Dear Max,

How are things? I hope that you are doing well. The last time we met, I was preparing for the maths competition at school.

You'll never guess what happened! The competition was last week and I won first prize! All my classmates took part in the competition and most of them are very strong in maths, so I didn't think I could win. The teacher gave me some problems to do before the competition and my mother helped me with some of the more difficult problems. I also found more problems on the Internet for extra practice. I was really surprised when the teacher gave me the news. My parents were really proud of me and I was really happy too!

What about you? How did your team do in the basketball tournament last week? Write back soon with your news!

Keep in touch,  
Mark

## Writing: A story

*suggested answer:*

It was a nice summer morning and Billy and James decided to go scuba diving. They took their scuba diving equipment and got into Billy's dad's boat.

As soon as they arrived, they put on their scuba diving gear and dived into the water. As they were swimming, they saw a tropical fish. They were amazed! It was so beautiful that they started taking photos of it.

Suddenly, they saw an entrance to an underwater cave. At first, they looked at each other because they were scared, but then they decided to go inside and explore it. While they were swimming in the cave, James discovered a wooden treasure chest. They were surprised.

They had to find a way to take it to their boat. They tied a rope around the chest and started swimming back to the boat. Then they pulled it up to the boat.

When the boys opened the chest, they couldn't believe their eyes! It was full of gold coins! They didn't know what to do. They decided to take the chest to the police. The police thanked them because they had discovered a really important treasure. The boys were so excited!
