B.

- E. We've lost touch.**
- F. We've been to the zoo.**
- G. We've never met before.**
- H. We've known each other for a year.**

Reading

Direction : Read the passage and answer the questions.

(1) Do you wake up feeling fresh and alert in the morning or do you drag yourself out of bed most of the time? If you don't have at least eight hours of sleep each night, over time, your health will suffer.

(2) Missing an hour or two of sleep for a few days will have an effect on your concentration and performance. However, sleeping more than the recommended hours does not necessarily mean that you will do better or accomplish more. Rather, oversleeping is quite similar to overeating. It makes you feel lethargic, and your concentration span becomes shorter too.

(3) Having at least eight hours of sleep boosts our immunity. People who adopt a good night's sleep pattern generally have stronger immunity. For many, especially women, compromising on their beauty sleep is impossible. When you sleep, your body repairs and regenerates skin, blood and brain cells. Our skin glows and our hair shines when we have enough sleep. People who are deprived of sleep usually have dark rings under their eyes.

(4) When you are healthy, everything seems to fall into place. You are able to perform better. You feel less stressful and can absorb and retain information more accurately. Handling tasks is a breeze as you make fewer mistakes. More importantly, for people who drive, their reaction towards an emergency is faster. That in turn reduces accident rates. Overall, having enough sleep also makes you less short-tempered, aggressive and paranoid.

1. What is the text MAINLY about?

- A. the effects of lack sleep on human skin
- B. what happens to our bodies during sleep
- C. the benefits of good sleep on our daily life
- D. the difference between overeating and oversleeping.

2. What does the underlined word in the second paragraph “**concentration**” mean?

- A- attention
- B- convention
- C- movement
- D- reaction

3. What goes to your body when you sleep well?

.....

.....

4. Why is sleeping more than eight hours not recommended?

.....

.....

5. Why is enough sleeping important for drivers?

.....

.....

Direction : Read the passage and answer the questions.

- 1- From far out in space, Earth looks like a blue ball. Since water covers three-fourths of the Earth's surface, blue is the color we see most. The continents look brown, like small islands floating in the huge, blue sea. The Earth is shaped like a sphere, or a ball. It is 25,000 miles around! It would take more than a year to walk around the whole planet. A spaceship can fly around the widest part of the sphere in only 90 minutes.

- 2- Even though spaceships have traveled to the Moon, people cannot visit the Moon without special suits. The Moon has no air or water. Plants and animals can't live there either. Astronauts first landed on the Moon in 1969. After that, there were six more trips to the Moon. They brought back Moon rocks, which scientists are still studying. There are holes, or craters, all over the Moon's surface.

- 3- The Sun is the closest star to Earth. A star is a hot ball of burning gas. The Sun looks very big because it is so close. But the Sun is just a medium-sized star. Billions of far-away stars are much bigger than our Sun. The burning gases from the Sun are so hot that they warm the Earth from 93 million miles away! Even though the Sun is always glowing, the night here on Earth is dark. That's because the Earth rotates, or turns around, every 24 hours. During the day, the Earth faces the Sun. Then we see light. During the night, the Earth turns away from the Sun. Then it faces the darkness of space.

A. What is the purpose of the text?

- A. To describe a famous person
- B. To narrate a story about space
- C. To discuss a topic of solar system
- D. To give information about direct communication

B. What did the astronaut bring back from the moon after 1969?

- A. craters
- B. rocks
- C. sand
- D. soil

C. How far is the sun from the earth?

- A. 90 miles
- B. 93 million miles
- C. 24 million miles
- D. 25 thousand miles

D. According to paragraph 2, what does visiting the moon require?

E. According to paragraph2, why can't animals and plants live on the moon?

F. According to the last paragraph, when does the earth rotate?

G. What happens when the Earth rotate?

VOCABULARY

(II) - Study the following sentences carefully then circle the correct choice:

1-A real friend is someone you can trust andon

- a) need b) rely c) help d) ask

2-Waleed is very nice. Everyonehim.
