Omar reached Cairo an hour ago

21- Fatima was making salad when she (**spill**) the oil. (Correct the word)

Fatima was making salad when she spilled the oil

Reading Comprehension:

Directions: Read the passage and answer the questions

Galileo was born in the year 1564 in the town of Pisa, Italy. When he was 20 years old, he was studying in Pisa. His father wanted him to be a doctor, but Galileo was bored with school except for math. Because math was the one subject where he was doing well, the court mathematician offered to tutor him privately so he could become a qualified mathematician. Galileo's father was disappointed, but finally he agreed.

Galileo began experimenting with different things because he could sell them to earn some money. He had a little bit of success with his invention that was like a compass that could be used to measure plots of land. He had already experimented with pendulums, thermometers, and magnets.

A Dutch inventor had invented something called a spyglass, but he was keeping it a top secret. When Galileo heard that he decided to work on one of his own. Within 24 hours, he had invented a telescope that could **magnify** things to make them appear ten times larger than real life.

One night, he pointed his telescope toward the sky, and made his first of many space observations: the moon was not smooth, like everyone thought. The moon was covered in bumps and holes. As technology has improved, first Galileo, and then many other scientists, have made improvements on the telescope, the wonderful device that allows us to see objects, like stars, from many a distance. In my opinion Galileo truly was the most successful scientist we have ever known.

51. What is the text Mainly about?

- A. the moon and the stars
- B. Galileo and his telescope**
- C. the importance of technology
- D. A Dutch inventor and his inventions

52. What does the underlined word (magnify) in paragraph 3 mean?

- A. clarify
- B. enlarge**
- C. reduce
- D. simplify

53. In paragraph one, what did Galileo's father want him to be?

His father wanted him to be a doctor.

54. In paragraph two, why did Galileo begin experimenting with different things?

because he could sell them to earn some money.

55. In paragraph four, what were Galileo's observations about the moon?

The moon was not smooth, like everyone thought.

56. What does the writer think about Galileo?

He thinks that Galileo truly was the most successful scientist we have ever known.

The moon is the easiest and brightest object to see in the night sky. The moon is our nearest neighbour. It is only about 238,900 miles (130 days travelling by car – 13 hours travelling by rocket). The Moon travels a distance of 1,423,000 miles around the Earth. It takes 27 days to go all the way around the Earth and return to its starting point.

The moon doesn't make its own light. The light we see comes from the sun and bounces off the moon. How much of it we see depends on its position in relation to the Earth and the Sun. If the sun wasn't there, we wouldn't be able to see the Moon. The sky of the moon is always black. The surface of the Moon has about the same area as the continent of Africa. Plants and animals can't live on the moon because it doesn't have water on its surface or oxygen in its atmosphere.

During the day, the moon is very hot (100 degrees) but at night it is very cold (minus 173 degrees). So astronauts who visit the moon wear special suits to ***protect*** themselves from the heat and the cold. The first spacecraft to reach the Moon was Luna 1 in 1959. Astronauts first landed on the moon in 1969. After that, there were at least six more trips to the moon. They brought back moon rocks, which scientists are still studying. Some poets and writers think that the moon is a symbol of beauty.

1. What is the text MAINLY about?

- A. the size of the moon
- B. the weather on the moon
- C. general information about the moon
- D. the distance between the moon and the earth

2. What does the underlined word “protect” in paragraph 3 mean?

- A. keep
- B. pay
- C. sell
- D. send

3. According to paragraph 1, how long does it take the moon to go all around the earth?

It takes 27 days to go all the way around the Earth.

4. According to paragraph 2, why can't plants and animals live on the moon?

because it doesn't have water on its surface or oxygen in its atmosphere.

5. According to paragraph 2, what would happen if the sun wasn't there?

If the sun wasn't there, we wouldn't be able to see the Moon.

6. According to paragraph 3, what do some poets and writers think of the moon?

Some poets and writers think that the moon is a symbol of beauty.

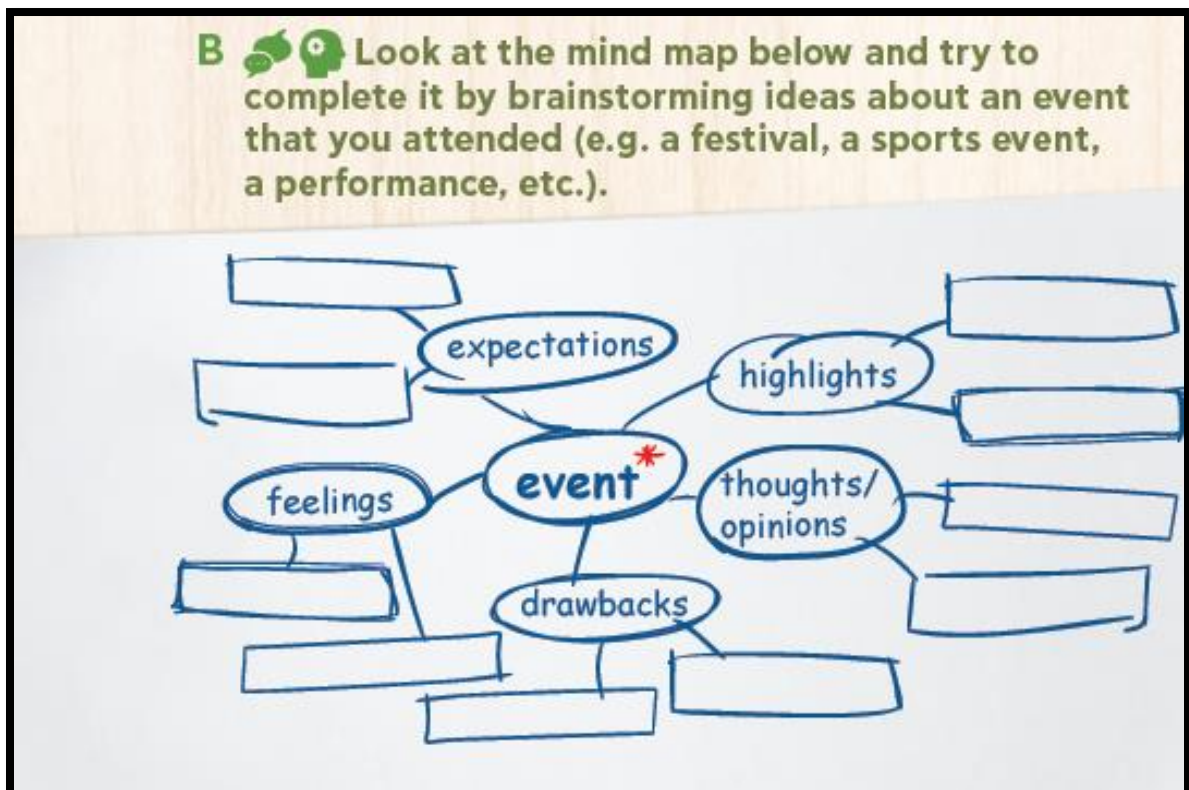

Writing

Write an essay about **an interesting event you have been to.**

Your post should consist of **three paragraphs**, and you should write at least **12 sentences**

Helping phrases / questions:

- what the event was
- when and where it happened
- what you expected to see
- how you felt and your opinion.

Write an essay **describing a person you like**.

Your essay should consist of **three paragraphs**, and you should write at least **12 sentences**

Helping phrases:

- who you are writing about
- his/her character and examples
- how he/she has influenced you
- how you feel about him/her

Plan

A description of a person

INTRODUCTION

Give some general information about the person (name, how you know each other).

MAIN PART (2 PARAGRAPHS)

- 1. Describe the person's character and try to give some examples.**
- 2. Say what influence the person has had on you and/or other people.**

CONCLUSION

Make a general comment about the person and say how you feel about him/her.

Write an informal email to a friend giving your latest news.

Helping phrases:

- greet your friend
- say why you are writing
- tell him about your news
- close your email and sign off

Plan

An informal email giving news

GREETING

Greet the person you're writing to.

- *Dear Kevin,* • *Hi Omar!*
- *Hello Aisha,* • *Dear Mum,*

OPENING PARAGRAPH

Begin your email and say why you're writing.

Use phrases/expressions like:

- *How have you been?*
- *I haven't heard from you for ages.*
- *Sorry I didn't reply sooner, but...*
- *I'm writing to tell you about...*
- *Guess what! I have some exciting news.*

MAIN PART

Give your news. Use phrases/expressions like:

- *The good news is...*
- *I've recently... Can you believe it?*

CLOSING PARAGRAPH

State anything you want to emphasise, ask for news and end your email. Use phrases/expressions like:

- *What's happening in your life?*
- *What about you? Do you still...?*
- *Waiting for your email/reply.*
- *Make sure you write and tell me your news.*
- *Anyway, enough about me. What have you been up to?*

SIGNING OFF

Use a signature ending and your first name below that.

- *Yours,* • *Take care,*
- Layla* *Jill*
- *Bye for now,* • *Keep in touch,*
- Frank* *Khalid*

Write an article describing a place that you have visited recently.

Helping phrases:

- name of the place.
- Where it is
- Sights to see there.
- What you think of it

Plan

An article describing a place

INTRODUCTION

Give some general information about the place (name, location, most interesting features).

MAIN PART (2 PARAGRAPHS)

1 Mention some of the sights but don't just list them. Try to give some information about each sight. Use phrases like:

- *One of the most interesting/well-known places in... is...*
- *You can... there because...*
- *There's also...*
- *Another place worth visiting is...*
- *... also attracts many tourists.*
- *... is another top attraction.*
- *You can also visit...*
- *Don't forget to visit...*

2 Mention what visitors can do there. Use phrases like:

- *You can...*
- *Don't leave without...*
- *Another thing you can do is...*
- *You should also...*

CONCLUSION

Give your general opinion of this place.

TIP!

When writing a description of a place:

- try to have well-organised paragraphs with topic sentences.
- use a variety of adjectives (e.g. impressive, breathtaking) to make your description lively.
