Reading:

1. Read the following passage and answer the questions below.

(1) Most of us find our lives becoming a little dull and boring. Boredom can attack our days that's why we need to search for something more interesting every now and then. When we are old, every one of us hopes to look back on their lives and talk about how exciting they were. Change is the spice of life; it improves our experience of it and makes it more enjoyable. Unfortunately, we all have strict timetables that leave us no chance for adventure.

(2) Here are some ways to make your life more interesting. Before anything, greet the dawn and watch the sun rise. Prepare for this moment by picking out a standing point and deciding when the sky in your area will be clear enough to welcome another beautiful day. Bring a friend along. As the sun rises, remind yourself of all the possibilities that a new day holds.

(3) Take a different pathway. Give yourself some extra time to change your routine travels to work or school. Try side streets instead of the freeway. Discover new places and new people and take a mini road trip. Explore new scenes right around the corner. Search the web for nearby points of interest. You don't have to travel far for a healthy change.

(4) Tired of listening to the same old radio programs? Risk it and try new ones. Watching TV is a passive activity. Turn off your TV and make something interesting. Why not actively search out your news and entertainment elsewhere? Read a newspaper, enjoy a play at a nearby theatre. Explore crafts of making simple things of recyclable materials or try reconnecting with a skill you already have like painting for example. Excitement was never expensive, tiring or time consuming.

In paragraph (4), what is special about excitement?

Read the following passage and answer the questions below.

Text 1: Scott

I love technology. When there is a new kind of tablet computer or a new smartphone in the shops, I have to buy it because I don't want to be isolated and have no communications with others.

A lot of people my age don't do that- I am 76. I never throw them away, but I keep them in my home. I even keep the old ones that I don't use. I only use one mobile, one tablet and one desktop computer. I use them a lot. I download films and music and I use social networking sites a lot. It's a good way to keep in touch with old friends. And it has helped me to make a lot of new friends, too.

Text 2: Gerry

I live in Toronto, but my son and his kids live in New Zealand. I go there or they come to visit me every year. But we speak most days, video chat helps us to stay in touch. I think the kids -my

grandchildren- like speaking to me on the screen. They are always very chatty and sociable. But when we meet in Toronto or in New Zealand, they are shy. When I was young, my friends and I met and talked. Now, young people go online. The world is changing.

Text 3: Delvin

I love people and I hate computers. My only phone is a landline. Landline phones were OK for my parents and my grandparents, and they are OK for me! I like to meet my friends, neighbours and

family. When I want to talk to someone, I go to their home. If they are in, we have a chat. If they are not there, I come back home. I don't mind – I like walking! My sons and my grandchildren are always saying, "come on, you have to get a computer, you have to get a mobile – then you can do video chat!". Well, I don't want to use mobiles and computers and smart phones and the internet! I am happy as I am.
