**اختبار الفصل الدراسي الثاني لعام 1438 / 1439 هـ**

**Comprehension**

**- Red the following passage and answer the questions:**

Rapa Nui is one of the world's most famous places. It is also the loneliest. Rapa Nui is a small island in the Pacific Ocean because of its great distance from any land. It had an extraordinary history. It had remained unknown to Europeans until 1722 when Jakob Regveen discovered it. Later, another captain came to it during his second voyage. Its inhabitant had been living on this remote island for centuries. Unfortunately, the population decreased for many reasons. In 19<sup>th</sup> century, they brought back diseases with them. In addition, there is no written account of island's history. The oral tradition vanished as well. Enormous statues that are in the island are figures of men showing only upper body. There are approximately six hundreds of them and specialists believe that they represent men who belonged to the ruling tribe of the island. Finally, there are many unanswered questions about it. This is probably what makes it truly fascinating place.
