Look at the pictures and the map.
What do you think the reading is about?

SG1 U4
Page 31

العامية

at the picture of the northern lights Midnight Sun (Aurora Borealis).
What do you know about this phenomenon?
Where can you see this?
A natural appearance of **colored light** in the sky.
A pattern of differently colored lights that are sometimes seen in the night sky in the most northern parts of the world

Find Finland and the Arctic Circle on a world map.
Find the **reindeer** in the picture.

Lapland:

The Land of the Midnight Sun

Read along as you listen

My name is Hannun, and I'm from Lapland. Lapland is a region in Finland near the Arctic Circle. It's very cold, and from December to January, it's dark most of the time. I live here with my family and my reindeer.

The main city of Lapland is Rovaniemi. It's a famous town in the north of Finland. In the Arctic, people see beautiful skies. The darkest time of the year is on December 21st. There is no sunlight from October. The sun comes out again on March 21st. The Arctic has light all day for the whole summer. This is called the midnight sun.

Page 31

الجاميها

In a group, make a poster with the following information about your country: capital, population, language(s), main cities, and places of interest.

look for information about your country. Find pictures of the cities or places of interest.

Collect the information

In groups ,make a poster about your country. You can illustrate the poster with the pictures you found or drawings you create themselves.

In a group, make a poster with the following information about your country: capital, population, language(s), main cities, and places of interest.

Saudi Arabia

The capital is
Riyadh.

The population is
31.700.000.

The language
spoken is Arabic.

The main cities are
Makkah
Madina
Jeddah
Dammam.

The places of interest
are:
The Holy Mosques
The historical cities
The Edge of the World.

In a group, make a poster with the following information about your country: capital, population, language(s), main cities, and places of interest.

It is very important. Patriotism and the sense of national belonging just doesn't mean standing in front of the T.V. when our team is playing World Cup, or our country is celebrating the National Day.

It means studying and working for your country

It means developing your country.

Changing your country for the good.

It means taking pride for what the nation is now but striving for more.

It means taking care of the country.

It means loving your country.

Above all , it means being of your country.

understand	understood
wake (up)	woke (up)
wear	wore
write	wrote

Teaching Tip

When calling on students in class, try to make sure that you call on all of the students roughly the same number of times in order to give everyone a chance to speak (and a reason to pay attention).

Additional Activity

It's an international world! Have students work in groups to list famous people or things from different countries. For example, within the category of cars, they may list that *Mercedes-Benz* is German, *Fiat* is Italian, *Peugeot* is French, etc. Other categories they might use are foods, clothing brands, furniture, etc. Share the lists with the whole class.

Project: Trivia Game

Have students work in small groups to write 8 to 10 multiple choice questions about different countries. They write each question on a small card. For example:

What is the capital of Spain?

a. Rome b. Barcelona c. Madrid

Collect all the questions and mix them up. Divide the class into two teams and play a trivia game using the questions. The team which answers the most questions correctly wins.

fun facts

- The midnight sun or polar day is a natural phenomenon that occurs in summer months near the Arctic Circle when the sun does not fall below the horizon. It is common in northern regions of countries such as Canada, Greenland, Finland, Iceland, Norway, Sweden, and the U.S.A. (Alaska). One fourth of Finland lies north of the Arctic Circle and in some places the sun does not set for 60 days during the summer.
- Polar night is the opposite phenomenon that occurs in winter when the sun stays below the horizon. In northern Finland, it can last for up to 51 days.
