Reading

Read the passage then answer the questions:

Ballpoint pens have not been around for very long. John Loud invented the first ballpoint pen in 1888. Before the invention of ballpoint pens, people had to dip their pens into ink when they were writing. This made writing slow. Also, sometimes too much ink made the writing messy. Ballpoint pens were the first pens that did not need to be dipped in ink.

Laud's invention was wonderful, but the design was still not perfect. Sometimes the pen did not get enough ink, and sometimes it got too much ink. Other inventors continued to work on the design of the ballpoint pen to improve it. For the next 30 years, inventors created over 350 kinds of ballpoint pens. But still the pens did not work very well, and people did not buy them.

It wasn't until 1935 that Ladislaw Biro and his brother developed an improved ballpoint pen in Hungary. Today, in the U.K. and Australia, some people call ballpoint pens *biros* after their inventor.

Reading

Read the passage then answer the questions:

Jeddah is a leading destination for international students and travelers. It has several public and private universities that provide a very high standard of academics. Jeddah is also the gateway to the Holy City of Makkah and hosts millions of pilgrims from around the world on their way to Hajj every year.

Jeddah has been an example of modern architectural and engineering innovation since the 1980s. One of the city's major landmarks is King Fahd's Fountain, the highest fountain in the world. It jets water as high as 312 meters (1024 feet) and can be seen from nearly everywhere in the city. Other landmarks include the NCB Tower, the IDB Tower, and the Jeddah Municipality Tower. There are also plans to build the 1,000-meter high Kingdom Tower, which, when completed, will be the world's tallest building.

The historic center of Al-Balad is a charming blend of traditional houses and modern glass skyscrapers, and its huge marketplace features a combination of traditional souqs and designer boutiques. Today, huge efforts are being made to preserve its historical architecture.

The city is also famous for its recreation. It is home to many famous football and athletic clubs. A light breeze cools the coast in the Corniche area, where visitors can eat at the many restaurants, relax by the beach, and have fun at the amusement park. And the beautiful coral reefs of the Red Sea are popular with scuba divers. There's always something interesting to do in Jeddah, the "Bride of the Red Sea."

Read the passage then answer the questions:

One night, in Germany, three men robbed a department store. Cameras showed three men with masks over their faces robbing the store and getting away. The men stole jewelry that was worth \$6.8 million. The police didn't know who the men were until they found a drop of sweat, which contained DNA. Scientists tested the DNA and, amazingly, they found two matches identical twins named Hans and Franz. The police knew that one of the twins had robbed the store, but they didn't know which one. They questioned both of them, but each twin said that he did not rob the store. Finally, the police had to let both twins go. They were not able to find out which one was the robber.
